

VIGILANCE IN HARBOR WORK BEACH TOPIC

NEWPORT BEACH, April 4.—J. A. Armitage, of Sunset Beach, made the principal address at the luncheon of the Exchange club yesterday in the Legion hut. His remarks were arranged around the point of "Eternal Vigilance."

"Your efforts here in Newport Beach have not as yet secured the goal towards which you have been striving, but a great deal has been accomplished," Armitage said. "In your efforts to build and open up your harbor, you have increased the taxable assets of your community to the point that the increase is carrying the expense of the investment."

"Your experience in harbor building is comparable to that of the early sponsors of the coast highway. The first effort towards the building of the Pacific coast highway was a meeting held by a group of 20 members of the improvement club at Sunset Beach. Another meeting was held at the Virginia hotel in Long Beach with representatives from every town from Santa Barbara to San Diego. A strong movement was launched to create an ocean side highway along the entire length of the state. Santa Barbara and San Diego lost interest and stopped attending the meetings but the rest carried on. Much to our dis-

appointment when the coast highway was finally laid out, it was routed through La Habra, Anaheim and Santa Ana, but we did not quit. The continuation of our efforts has been justified by the present highway, which in less than two years will be the most traveled route of the state. This is recognized by the state highway department officials as they have included \$300,000 in their budget for the road.

"The Orange county coast association is fostering a movement to improve the Coast highway 56 feet in width throughout the county. Keep on with your harbor plans, employing eternal vigilance in every move, and you will win out in the end to as successful a finish as the Pacific coast highway."

Stuart Cundiff announced that a joint meeting will be held with the Santa Ana Exchange club at the Santa Ana cafe, Sixth and Main streets, April 16 at 8:30 p.m. J. A. Gant, chairman of the committee on ladies' night, reported that the entertainment will take the form of a dinner dance, with cards for those who wish to play, April 24 at the country club.

Tax Legislation Not Possible At Special Session

WASHINGTON, April 4.—(UP)—There is no possibility of tax reduction legislation at the special session of congress, high treasury officials said today.

Asked if there might be a tax cut at the next regular session starting in December, officials said it was too early to consider that possibility at this time.

Mary Pickford Through With Silent Drama

NEW YORK, April 4.—(UP)—Mary Pickford is through with the "silent drama." Unlike Charlie Chaplin, who told the United Press he would never act in a "talkie," Miss Pickford wired the office of the United Artists here today: "I will never make another silent picture. I believe the future of the screen lies in the talking film." She has just completed her first "talkie."

NEW HEADS OF PRESBYTERIAN CHURCH NAMED

Election of officers and reports of the various church societies were the important features of business transacted last night at the annual meeting of the First Presbyterian church. The Rev. O. Scott McFarland, pastor, acted as moderator of the meeting and Leon Lauderbach was clerk.

Elders elected were F. D. Plavan, E. B. Sprague, P. R. Plank, H. P. Rankin, H. W. Lewis and J. C. Kirby. An overlapping system allows three elders to act as trustees and these posts will be filled by Plavan, Sprague and Plank. Other trustees elected were W. S. Suddaby, George Smith, J. R. Moore, Alex. Brownridge, Fred Forgy, C. G. Dowds and John Bischan. A. V. Marigold, A. J. Alberts and George E. Shriver were the deacons chosen.

The church membership report, made by Lauderbach, showed 202 new members and 90 lost, leaving a gain of 113 members and making the total for the year 1411 members.

The report on Sunday school membership was made by Mrs. J. J. Moore. Her statistics listed 1051 members in the Sunday school, with the average attendance of the year set at 595.

Mrs. J. R. Goodwin gave the report of the Aid society, which has 306 members. She told of the 468 baskets of wild flowers which were sent to the sick by the society during the year and of the 3796 calls made. The total receipts of the society were \$962.

Mrs. J. E. Kellogg gave the treasurer's report of the Missionary society, which has a membership of 117, with 167 active women. Her report listed gifts and receipts to the amount of \$3035 for the year. Charles Winans, Sunday school treasurer, reported \$2500 taken in for the year and all given to missionary causes.

E. B. Stafford, treasurer of the church, reported the receipts and expenditures for local expenses as \$20,000 and those for missionary

LAGUNA BOARD PREPARES FOR ROAD OPENING

LAGUNA BEACH, April 4.—Passing of the resolution of intention for Sleepy Hollow lane under the Mattoon, act as acquisition and improvement district No. 3 was the chief piece of legislation before the city council Wednesday evening.

Sleepy Hollow lane is designed to give access to residences on the ocean front and has been under consideration for several years. Several months ago property owners got together on a basis which permitted the project to go through and after much work the matter has been adjusted so that it is expected that the hearing, set for May 1, will not bring forth any protests.

First money from the Southern California Edison company on its franchise, two per cent of gross business, brought \$25 into the city treasury.

The request of the Rev. Percy W. Clarkson for a permit which would allow him to place windows in a contemplated building to be erected on property adjacent to the new unused Episcopal church was referred to the city engineer for decision. Foundation for the building was laid nearly two years ago and before the present ordinance was adopted, and this was the basis for the request for a departure from the provision of the ordinance. The church is now owned by the Rev. Mr. Clarkson and is not used for religious worship.

Report of the auditor on the condition of accounts of the city treasurer was given official approval and filed. The audit was made preliminary to bonding.

Councilman William W. Riddell asked that action be taken looking toward bonding the city for establishing street grades and rough grading of streets. After some discussion of what would be required, the matter was referred to a council committee consisting of Mayor Frank B. Champion and Councilmen E. B. Mason and R. D. Lippincott.

It is estimated that the cost for the work outlined will amount to \$25,000. A bond expert will be consulted by the committee to ascertain precisely what steps must be taken. The project itself has received the endorsement of a number of civic bodies as the most essential step toward the eventual improvement of the city with sewers and paved streets. Need for this work has been frequently stressed.

Lights for Catalina street at Anita and San Joaquin streets were recommended by Councilman C. R. Clapp and he was authorized to have them put in.

Councilman William W. Riddell reported that damage to property of Herbert Deffly on Broadway, asserted to have been done in connection with steam shovel work in the grading and widening of the latter, was not of sufficient value to warrant interference by the city, and that it was really a matter between Deffly and the contractor, the Griffith company.

Promise that the fire truck to be purchased by the city would be here on demonstration soon was made by Fire Chief Peter J. Bushman. It is a combined chemical and pumper.

work through the organizations of the church as \$16,042. In addition to the latter sum, members of the church contributed over \$2000 to the pension fund for Presbyterian ministers and missionaries.

FLOOD CONTROL WORKS HERE WOULD BE SAFEST IN STATE, SAYS PAUL BAILEY, ENGINEER

That flood control works tentatively planned for the Santa Ana river and Santiago creek by the Orange county flood control district would be safer and more secure than any other similar works in the state of California was declared today by Paul Bailey, flood control engineer, who addressed the directors of the Orange County Farm bureau. Bailey, in outlining what has been done in flood control investigation, stated that he knows of no other project of this kind in the state which would be as safe as those which could be constructed in this county.

In his talk he explained possible flood control and water conservation structures which his studies had shown to be possible and practical on the Santa Ana river, Santiago creek and other streams, both in the northern and southern part of the county. He explained that his talk was not an outline of an official plan for the huge projects, but simply an expose of what such a plan might include.

Plans worked out for the Santa Ana river and Santiago creek are based on providing protection against a possible flood much larger than any ever experienced here and larger than any deluge which it is reasonable to expect. The nature of the plans and the various features they contain are responsible for the high degree of safety which will be assured.

At 3:30 p. m., today, Bailey was scheduled to meet with the board of supervisors, citizens' advisory committee and the county's board of consulting engineers to go over the tentative scheme for flood control works on Orange county streams. The discussion, although to be of an informal nature, was expected to reveal in a general way a view of the whole project, for which investigations have been under way for more than a year.

The consulting board, which consists of three nationally known engineers, may wind up its work here and be ready to leave Santa Ana early next week. Whether it will be necessary for the engineers to remain longer was expected to be revealed at today's meeting.

A. J. Wiley, Boise, Ida.; Charles H. Paul, Dayton, O., and F. C.

Herrmann, San Francisco, compose the board.

Last night the board met in the flood control offices, on North Sycamore street, with a committee representing the Orange County Engineers' association. The general results of Bailey's investigations were discussed. Next Monday there will be a meeting at which the association membership will be present to hear the project outlined.

ORANGE PASTOR IN OFFICE ON MAY 12

ORANGE, April 4.—Reports presented at the annual meeting of the First Presbyterian church last night were the best in the history of the organization, it was declared. All bills were paid and a sum of money was left in the treasury.

The meeting opened with a 6:30 o'clock dinner, 150 being present. The Rev. M. L. Pearson presided. Four elders were elected, as follows: J. T. McInnes, Walter West, R. E. Warren and F. H. McElfresh. Deaconesses elected were Mrs. L. E. Druler and Mrs. I. W. Jones. Sunday school officers will be elected at a meeting to be designated later.

Arrangements were made for the installation of the new pastor, the Rev. Robert Burns McAulay, who is expected to arrive from Sacramento the first of May. The date of the installation has been set for May 12.

JURY FAILS TO REACH VERDICT IN THEFT CASE

The jury hearing the case of the People vs. A. C. Donaho in the court of Justice Kenneth Morrison, yesterday disagreed and reported to the court at 3:15 p. m., that it was unable to reach a verdict in the case, in which Donaho is charged with petty theft.

A peculiar coincidence lay in the

fact that there were seven women and five men on the jury and the split was in that same ratio.

The case, which was presented to the court by Attorney Russell Pray, of Long Beach, for the defense, and Chief Deputy District Attorney R. W. Blodgett, for the prosecution, was closed shortly after 5 o'clock yesterday afternoon.

Evidence presented to the jury during the afternoon session of court in the case, in which Donaho was accused of theft of pipe belonging to the Pasadena Oil company, was to the effect that Donaho got the pipe on the instruction of P. H. Cooper, of Long Beach, and sold some of the pipe to pay for work he had done on Cooper's instructions when he was unable to locate Cooper to collect.

Judge Morrison reset the case for April 24.

INVESTIGATE ORIGIN OF MYSTERY BLAZE

Deputy sheriffs are investigating the mysterious fire which destroyed a store, which also served as a dwelling for the Knowles family, on Salt Creek, near Laguna Beach, Monday night. The family was absent from home at the time of the fire and lost all its belongings in the blaze.

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Mateer's Drug Store.—Adv.

COMMITTEES IN CHARGE RODEO ARE ANNOUNCED

Breakfasters and friends who attended the big rodeo being arranged by the Santa Ana Breakfast club for Sunday, May 20, at the Orange County fair grounds, will have to fast until 11 a. m., on that date if they want to breakfast with the club, it was revealed at the meeting of the club this morning.

President Guy Gilbert said that breakfast would be served some time between 11 a. m. and 1 p. m. However, he pointed out that it is not mandatory that those attending should abstain from the morning meal.

Gilbert emphasized the point that there will be no charge for admission to the rodeo and that parking space will be free.

The committees announced by Gilbert, who will be general chairman, were as follows:

Entertainment—Bruce Switzer, Eugene Kahen, Bob Fernandez, Tevis Westgate, Bert Morthland. Special general—George Boyd, Hubert Brown, Frank Purinton. El Rodeo Riding club—Howard Timmons, Jack Waltz, Leo Porter. Breakfast food—Bob Walker, Stanley Clem, Hunter Leach, Ernie Winbiger.

Stunts—Earl Morrow, Jack Cope. Tickets—Fred Crowell. Concessions—Lowell K. Huber. Marshals of the day—Jess Elliott, Hunter Leach, F. W. Howard, Capt. Henry Mechar.

A surprise was sprung on the club this morning with the appearance of a quartet, composed of club members, the offerings of the singing group going over big with the members. H. P. Richards, Dr. K. H. Sutherland, Cy Featherly and Isadore Fields composed the quartet. Miss Marjorie Walton was accompanist.

Miss Neva Mizer made her first appearance before the club and entertained with two readings.

A telephone prank on District Attorney Z. B. West and initiation ceremonies conducted by B. Z. McKinney, were amusing incidents of the session of the early risers.

DOWNPOUR FAILS TO DAMPEN SPIRITS OF REGISTER BOYS ON CATALINA ISLAND OUTING

One hundred and twenty Register carrier boys and their escorts didn't even stop to notice that it was raining when they piled into Motor Transit buses at 7:45 a. m., today and pushed off for Catalina Island on a day of vacation provided for them by the newspaper.

With enough noise and enthusiasm to supply a small college with a world beating rooting section, the boys got under way, expecting to reach the scene of their day's fun in time to develop plenty of appetite before lunch time. J. Frank Burke, editor; Roscoe M. Conklin, circulation manager; Eleanor Young Elliott, of the news department; and other Register employees accompanied the group.

While on the island today the regiment of fun-seeking carrier boys expected to take the famous glass bottom boat trip, to inspect the bird farm and to take the skyline drive, visiting unique places on the island.

Before leaving the boys were filmed in action by the Forman Gilbert Motion picture company of Santa Ana. The movies will be shown in the Yost Broadway theater.

Every one of the 120 boys making the trip had succeeded in qualifying for the outing by helping to boost the circulation of The Register to a mark far above any previous one on record. For weeks the carriers have been devoting their spare time to garnering subscriptions for the coveted trip.

Today 120 trained substitute carriers delivered The Register to Santa Ana homes while the "regulars" forgot business for a day.

LAGUNA BEACH CHURCH NAMES NEW OFFICERS

LAGUNA BEACH, April 4.—Officers for the ensuing year were selected by the Community Presbyterian church Wednesday evening, following the annual church supper in the basement of the church.

Elders for the year are Augustus Thomas and W. E. Van Gorder. Trustees are G. W. Prior, Brayton S. Norton, H. C. Hind, Frank W. Shields, Miss Anna Jones and Leon Endres. Elders were elected for three years, trustees for one.

Miss Nellie Hills was returned as secretary and treasurer, assistant to be Mildred Thompson. Miss Anna Hills is again superintendent of the Sunday school. A rising vote of thanks was given the Misses Anna and Nellie Hills for their faithful service in church work.

Ushers for the year, according to the selection made at the meeting, will be Leon Endres, S. A. Hayward, Brayton S. Norton, Frank W. Shields and Russel Hind.

Rev. William Kirkwood, of New York city, talked on appreciation of the hospitality extended to him during his stay of several months in this city. The Rev. Mr. Kirkwood was connected with one of the largest churches in New York city for a number of years.

The annual report of the Woman's club of the church was submitted by Mrs. H. C. Hind. The church supper was attended by about 150 persons.

INSURANCE COMPANY DEFENDANT IN SUIT

The yacht California owned by Norris H. Hilton Los Angeles, alleged to have been grounded at the entrance to Newport harbor on March 4, 1928, was the subject of a lawsuit today in Superior Judge H. G. Ames' court.

According to the complaint, filed through Stanley Reinhaus, Santa Ana attorney, the Federal Insurance company issued a \$2000 policy on the vessel and, after it was wrecked and damaged, refused to pay the policy.

FOUR SPEEDERS DROP \$50 INTO CITY COFFERS

Speeding offenders were in the majority in the court of City Judge John F. Talbot yesterday, four out of the six persons appearing before the judge answering guilty to that charge.

Fines of \$10 each were levied on Ralph Romo and W. A. Cropper and of \$15 each on Ernest Bell and George A. Johnston for violating the speed ordinance.

Fines of \$2 each were paid by M. E. Rosenbaum, on a charge of blocking an alley, and W. E. Hansen, for overtime parking.

During the afternoon session five cases were heard. Dick Cornaglia, on account of leaving his motor running unattended; W. B. Budrow, charged with parking in a restricted district; D. N. Miller, charged with parking in a loading zone, and K. King, for parking overtime, were fined \$2 each.

J. W. Martin paid \$3 for ignoring a boulevard stop sign.

Local Briefs

Vacation week will culminate for the boys of the Y. M. C. A. in a party in the West Coast-Walker theater Saturday morning, when they will be entertained as guests of the management, with a program of music, pictures and talks. All boys who are members of the Y. are to meet at the Y. building, and from there they will be taken to the theater.

"The Scot and Ulster Scot" is to be the subject of a discourse given in the Reformed Presbyterian church Sunday night by the Rev. David Calderwood, of the Covenant church, Los Angeles. Scotch folk and Ulstermen of Orange county are especially invited to attend this service, according to the Rev. Samuel Edgar, pastor, who is to exchange pulpits with the Rev. Mr. Calderwood on that date.

Past presidents of the Toastmasters' club had charge of the program at the meeting of that organization last night at the Y. M. C. A. With but two exceptions all past presidents were in attendance. W. F. Crites of Los Angeles, first president, had charge of the evening's program. John Estes, second president, acted as toastmaster and speeches were given by Chester Hawk, W. K. Hilliard and Sam Hurwitz.

Edward Everett, trust officer of the First National Trust and Savings bank, Fullerton, will speak at the meeting of the Santa Ana Realty board, at noon tomorrow, on "Trust Company Services." Edward Baird will be program chairman.

An address by E. S. Morrow, in which he repeated recital of some of his father's activities as a photographer in the Civil war, and musical numbers by the Mustol sisters were features of the meeting yesterday, of the Santa Ana Kiwanis club.

R. C. Smedley, secretary of the Y. M. C. A., gave the students of the Business Institute and Secretarial School a lecture on "Memory, and How to Develop It." Mr. Smedley plans on following this introductory lecture with two others, the first to be next Tuesday.

Stated meeting Santa Ana Chapter No. 73, R. A. M., Thursday, April 4th, 8 p. m. Pot luck dinner 6:30 p. m. Visitors welcome. JAMES FARRAGE, H. P. (Adv)

One Cent a Day Brings \$100 a Month Over 100,000 Persons Have Taken Advantage of Liberal Insurance Offer. Policy Sent Free for Inspection

Kansas City, Mo.—Accident insurance at a cost of one cent a day is being featured in a policy issued by the National Protective Insurance Association.

The benefits are \$100 a month for 12 months—\$1,000 to \$1,500 at death. The premium is only \$3.65 a year or exactly one cent a day. Over 100,000 paid policies of this type are already in force. Men, women and children ten years of age or over are eligible. No medical examination is required. This may be carried in addition to insurance in any other company.

Send No Money To secure 10 days' free inspection of policy, send no money. Mail to the National Protective Insurance Association, 1451 Scarritt Bldg., Kansas City, Mo., the following information: Name, age, address, beneficiary's name and relationship. After reading the policy you may either return it without obligation or send \$3.65 to put policy in force for a whole year—\$65 days—(Copy-right, 1928).—Adv.

TEACHING COURSE OPENS NEXT WEEK

A university extension course on methods of teaching adult foreigners is to be offered at the Frances Willard junior high school by Miss Druzila Mackey. The course will begin April 11 and will continue each Thursday night, with classes convening between the hours of 4 and 6 o'clock.

Miss Mackey has just completed a series of lectures on "The Immigrant Mexican" and the teaching course will be its sequel. The course gives a two-unit credit toward a special American credential for the instruction of adult foreigners and counts toward an A. B. degree.

Mrs. Golden Norwood, head of the Americanization work in this city, said concerning this latest extension feature: "Miss Mackey has had much experience in the work and I consider this a very good course for anyone who is planning to do any amount of work in this field."

CORBETT, MEYERS MATCHED SAN FRANCISCO, April 4.—Young Corbett, III, of Fresno, a contender for the welterweight title has been matched to meet Pete Meyers, local welter sensation, April 22, according to Promoter Ancil Hoffman.

Beautiful Women Use Mello-glo Beauties who guard their complexions use MELLO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process, MELLO-GLO Face Powder stays on longer. Santa Ana Drug Co.—Adv.

One Cent a Day Brings \$100 a Month Over 100,000 Persons Have Taken Advantage of Liberal Insurance Offer. Policy Sent Free for Inspection

Kansas City, Mo.—Accident insurance at a cost of one cent a day is being featured in a policy issued by the National Protective Insurance Association.

The benefits are \$100 a month for 12 months—\$1,000 to \$1,500 at death. The premium is only \$3.65 a year or exactly one cent a day. Over 100,000 paid policies of this type are already in force. Men, women and children ten years of age or over are eligible. No medical examination is required. This may be carried in addition to insurance in any other company.

Send No Money To secure 10 days' free inspection of policy, send no money. Mail to the National Protective Insurance Association, 1451 Scarritt Bldg., Kansas City, Mo., the following information: Name, age, address, beneficiary's name and relationship. After reading the policy you may either return it without obligation or send \$3.65 to put policy in force for a whole year—\$65 days—(Copy-right, 1928).—Adv.

Radio-Active Preparations

The intelligent woman of twenty-five or over, knows that she must use her beauty preparations regularly—and that she must have expert advice upon its choice—that she must have preparations of proven merit . . .

all these you will find in Oxyclair Preparations . . . carried here only in Orange Co. An experienced skin consultant in charge to advise as to individual needs.

Perfumed Facial Tissue We carry the non-tearable perfumed facial tissue for cleansing the skin . . . everyone is enthusiastic over it.

Our Narcissus Shampoo Also Undine hair tonic—is proving very popular.

Oxyclair Water Softener A delicate perfumed water softener; . . . one feels they have dipped into the "Fountain of Youth" after an Oxyclair Apollo Salts bath. Ask for our SUN-TAN powder . . . an exquisite new shade.

Lovely Manicure Articles The finest line of manicure articles to be found in the city. We are now handling the Griffon line which represents the finest of steel.

Oxyclair Compacts Exclusive Perfumes Smart women insist on loose powder vanities. Oxyclair compacts have all the qualities that conform to the modern woman's demand. Ask to see them. Do not forget the lovely odours of "Breath of Youth" and "Klieperer" perfumes, sold here only in Santa Ana. The breath of youth brought to your own dressing table.

400 DRIVERS' LICENSES ARE GIVEN MONTHLY

Approximately 400 operators and chauffeurs are licensed monthly by the state traffic department office in the county court house, according to a statement made today by Douglas Chambers, a member of the staff. Although as a rule the licenses issued to operators have exceeded in numbers those issued to chauffeurs, the numbers have been about equally divided during the past few months.

Chambers, who conducts practically all of the examinations for the local office, said that a surprisingly large number of young people applying for licenses have poor eyesight and have to be equipped with glasses before they can pass the tests. He said that the older applicants have less trouble in passing this part of the examination.

Only about five per cent of the applicants fail to pass the required test which includes a written examination covering the important points of the California motor vehicle act, in addition to the physical eyeight tests and demonstration of driving ability. About two per cent of the applicants are "visitors," the balance being residents of the state.

Main, Chapman Station Moved

ORANGE, April 4.—Work of moving Shep's service station at the corner of Main and Chapman streets is nearly finished. The building has been moved to face the corner of the intersection and its new position gives the highway a wide curve at this corner.

Work of relocating the station was done by the city of Orange under the supervision of C. C. Bonebrake, city street superintendent.

The Public Forum

Communications under this heading must be signed by the name of the writer. These communications express the opinions of the writers of them. The opinions may or may not be the opinions of The Register.

Editor Register:—

Being a resident and taxpayer of the city of Santa Ana, and a subscriber to your paper, would like to say a word regarding the new proposed highway leading into Santa Ana from the north to be known as El Portal, to cost, according to the city engineer of Santa Ana, approximately \$300,000. Other engineers claim it will cost \$400,000 at least and if it becomes necessary to condemn the right-of-way, which I understand is the case, for while some of the property owners may be willing to donate the right-of-way, and yet they will reason, just why should they turn over their land without a fair compensation, while their neighbor is paid for his? The project, including condemnation proceedings, will cost approximately one-half million dollars which will have to come from the pockets of the Santa Ana taxpayers, and which, when spread over a period of ten or more years at 7 per cent interest, well, figure it out yourselves. And what is the big

idea anyway? Has the honorable body of the city council completely forgotten that Main street will be paved during the coming summer to a width of fifty-six feet, which will provide four lanes of traffic on that street? Now there is Flower street. If those citizens who live between the Southern Pacific railroad and the present city limits of Santa Ana wish to annex their property along Flower street to Santa Ana, they can do so, and to my mind, is a splendid thing to do. Our city trustees can then order that part of Flower street, which lies between the bridge and the railroad tracks and which is included in the proposed annexation, paved full width and assess the cost to the abutting property owners. Everybody will agree that a nice wide street enhances the value of one's property, and they are the ones who should rightfully pay the bill. We in Santa Ana are compelled to pay the cost of paving the streets along our frontage. No Santa Claus has ever come along and helped any of us.

Now that part of Flower street between the railroad tracks and Chapman avenue lies practically entirely in the county, with the exception of a narrow neck which crosses Flower street two or three hundred feet south of Chapman avenue, which was annexed to Orange. Now then, why not put the proposition up to the county supervisors with a view of having those two bad curves on Flower street eliminated, or practically so, by purchasing from the two property owners enough land to make one nice easy swing? Those corners are very close together and the cost would be moderate. The California Highway commission are working along these lines right now, and are eliminating all their sharp curves between Santa Ana and Anaheim. And now regarding that narrow neck above referred to which is in the city of Orange and which is probably not over 200 feet wide. I believe that the city trustees of Orange will be glad to co-operate with the trustees of the city of Santa Ana and with the county commissioners with a view of having that part of the work done to conform with the rest. Now just how much will THIS plan cost the taxpayers of the city of Santa Ana? NOT ONE THIN DIME. The cost will be distributed where it should be and belongs. The citizens of Santa Ana can take this \$300,000 to \$500,000 and purchase a tract of ground for a park which we certainly are sorely in need of, and we can also build more school buildings to take care of our children, which I am told on very good authority, we are badly needing right now; so instead of burdening the people with an expense of \$300,000 to \$500,000 to build a road which is not needed, and if you must put this burden on the people, why not build schools and parks which are vitally necessary; for as I see it, there is not one valid argument for this street, as the new fifty-six-foot state highway and the handling of Flower street as outlined above, will take care of this traffic for years to come.

Very truly yours,
A. G. DIEHL,
605 E. Chestnut Ave., Santa Ana.

Ring out the scum!
Ring in the soft water!

Good news! Water need no longer be hard, even in this hard-water country. Scum need no longer form in the bathtub! Dirty rings need no longer be scrubbed from tubs, dishpans or wash-basins!

Use Melo to soften hard water! It prevents the forming of the dirty ring. It makes water delightfully soft. It saves from 1/3 to 1/2 the amount of soap ordinarily used. It makes soap much more effective. With or without soap, water softened with Melo is a wonderful cleaner. Get it at your grocer's.

High Cost Will Solve Broadcasting Problem, Belief

RADIO DEALERS' RESPONSIBILITY IS EXPLAINED

BY G. R. WALTERS
Special Representative Interference Committee

With the passage in Los Angeles of a radio interference ordinance there has been brought to our minds the responsibility which rests with the radio industry regarding interference as a whole. It is perfectly right and proper that there should be on the statute books some type of legislation which will assure those who purchase radio receiving sets that their programs will not be needlessly ruined. At the same time there is a responsibility which rests squarely upon the shoulders of the radio dealers and service men which cannot be shirked.

It would be a physical impossibility to police the air adequately even with an army of trained men. As long as we have radio sets constructed as they are today there will be interference.

Dealers are Ambassadors. The radio dealer is the ambassador of a great industry. He represents not only the firm from which merchandise is distributed, not only a manufacturer of tubes or cabinets or speakers—but rather he represents the comfort and happiness and pleasure which radio is bringing into the homes and lives of millions.

The dealer represents performance. Regardless of what it may be anything which affects the performance of radios either individually or collectively, should be a matter of deep concern to the radio dealer, and the public as well.

Co-operation and intelligent effort are the two things vitally necessary in dealing with interference problems.

It is manifestly unjust for a radio dealer to make the broad assertion, when he discovers that there is interference present: "Call the public utility. It is up to them."

Often in Set
During the last two years the interference committee of the radio trades has never found any utility shirking responsibility when they are at fault. They do not feel, however, that the dealer is making the necessary preliminary surveys which would relieve them from a tremendous amount of unnecessary investigation.

Day after day we investigate interference complaints which are found to be in the set itself.

Call it fair play, call it good sportsmanship, or call it by any name you wish, there is a right and a wrong way for the dealer to bend and influence public opinion in regard to the relation of public utilities and radio interference.

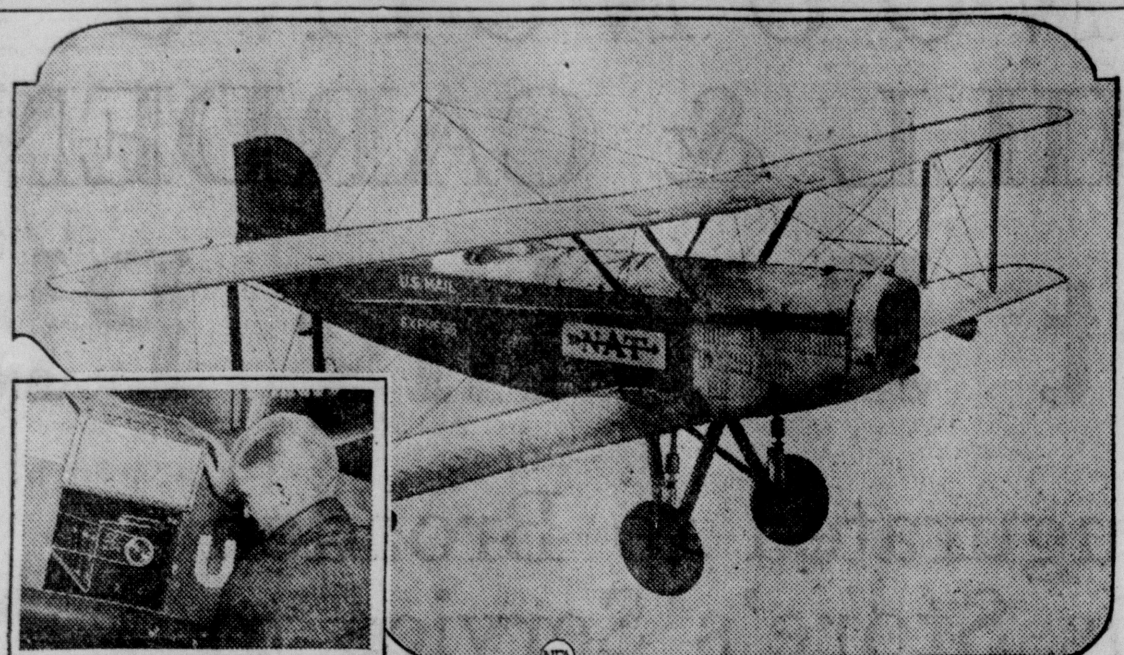

In every community the dealer has the confidence of the radio public. When the dealer makes a statement it is usually accepted as fact. In return for the money and time the utilities are spending, let's be sporting enough to give them the benefit of the doubt and protect yours when we investigate a "leaky transformer" complaint and find a defective tube.

Arcturus Buys Plant Addition

Increase in production of from 17,500 tubes daily to about 45,000 tubes daily will follow the purchase of a new manufacturing plant in Newark by the Arcturus Radio Tube company, announced today. The factory will add 110,000 square feet of floor space to the 45,000 square feet of present facilities and will increase the present payroll of 900 employees by several hundred.

RADIO ENABLES AVIATORS TO DEFY WEATHER

This radio equipped airplane—note the vertical antenna—is flown by N. A. T. pilots between Cleveland and New York, guided by radio beacons. Radio Technician F. E. Gray is shown at the left inspecting the compact radio set which is placed behind the pilot and which is controlled by means of a cable from the instrument board.

PERCENTAGE OF AC SETS SOLD GAINS GREATLY

NEW YORK CITY, April 4.—The number of AC receivers sold in 1928 increased 456 per cent over 1927, according to a statement issued by Edgar H. Felix, radio consultant, of the National Electrical Manufacturers' association.

This increase is indicated by the January 1st quarterly survey of stocks in the hands of radio dealers and gross sales, prepared by the Department of Commerce in cooperation with the Radio Division of NEMA. The total number of AC, DC and battery sets sold by radio dealers increased from 1,558,940 in 1927 to 2,196,242 in 1928.

Some of the increase in the sale of AC sets is accounted for by the reduced sale of battery powered sets, which sale fell from 1,143,031 in 1927 to 303,435 in 1928, from 73.4 per cent of the total set sales to only 13.9 per cent, all in one year.

This reduction in battery set sales has an important bearing on total retail sales, as each battery receiver requires accessories having a value usually equal to that of the receiver itself.

The reduced sale of accessories, lower price of tubes sold with sets, and the tendency to make receivers complete with loudspeaker and radio furniture, has concentrated most of the sales in the products of receiver manufacturers and greatly reduced the accessory business.

Furthermore, the average price of receivers has fallen off so that the retail dealer must sell more sets to make the same profit than he did formerly.

George Stinson, 'Singing Cop,' On KPLA On April 24

Radio fans will have their first opportunity to hear the voice of George Stinson, celebrated Orange county "singing cop," on April 24, over KPLA, the Los Angeles Examiner broadcasting station.

Stinson will sing in conjunction with Mrs. Boni, well known dramatic soprano. The program will consist of operatic arias, ballads, and classic songs. The "singing cop" recently closed a successful week's appearance at Loew's State theater in Los Angeles, where he made more popular the new hit, "Love Tales From Alsace Lorraine."

BEFORE THE MIKE

Big names in the radio entertaining line are recognized as a valuable aid in putting across sponsored radio programs. The two major chains have demonstrated this. Columbia tied up Paul Whiteman and his band with a cigaret manufacturing concern. NBC has signed up Vincent Lopez to conduct an orchestra sponsored by a cigar manufacturer. These two band leaders are probably the best in the country.

Shepherd

Radio artists are just as human as the rest of us. A short biography of Charles L. Shepherd, recently appointed director of KHH, Los Angeles, reveals that his grandmother had to lock the windows and make him take off his shoes before she could trust him to take his piano lessons. After that Shepherd grew to like music, and started on a career taking him to Europe and throughout this country.

An invaluable technique in music is "touch." Most musicians have their "touch" in sensitive fingers. But in addition to finger touch, an organist must have a "touch" in his toes. Irma Glenn, staff organist at WENR, Chicago, wears a particular type of shoes in order to get various shadings in music with manipulation of foot pedals. The lower part of the shoe is of soft, flexible leather.

Frogs behind the Oakland, Calif.,

studios of KGO, supply that station with a free novelty that brings many comments from city folk. Every once in a while the studio microphone picks up the creaking of these amphibians, carrying the city dwellers back to nature.

Kenneth MacGregor dabbled in a lot of things before he finally wound up as program director and publicity man for WBZ-WBZA, Springfield, Mass. He went to college, took up forestry work, English and French literature and then wrote for a newspaper. He acted as junior announcer and tenor for WBZ before getting his present job.

Station officials at WOR, Newark, believe that Miss Veronica Wiggins has a voice that radio listeners never tire of. She has been with WOR since she was 14, appearing in the Choir Invisible, Don Juan, the Carolyn Trio and many other features. It is said that in all the fan mail she has received during her radio career, she has never received an adverse criticism.

Miss Wiggins

MAIL ORDER RADIO

Four text books, serving as a guide to radio service men, have been prepared by the radio division of the National Electrical Manufacturers' association in cooperation with the Radio Institute of America. Four examination papers are offered with the books.

Here's some more About Gladys M. Petch, Englishwoman, said To have the world's Best woman's radio voice—Mrs. Petch, as we Told you some time Ago, has many ideas for improving the voices Of we vulgar Americans And she would, Being an Englishwoman—Americans, for the Most part, she asserts, Speak with a Harsh nasal twang and She is frank to Add that some of our American radio Announcers have Terrible voices—Granted, but we doubt Whether all of England's announcers Are perfect models Of speech—Maybe we do Mrs. Petch A great wrong in 'Razzing' her criticism Of American radio Speech, for probably her Criticism is not Offered in the spirit of Contempt that we Suspect—She at least has some Ideas on speech That are worth Setting forth for our Readers—Asked to what she Attributed her 'perfect Speaking voice,' Mrs. Petch declared that In giving lessons in English over the Government radio station In Oslo, Norway, She had learned to Speak slowly and Distinctly through the Necessity of making Her points clear To a foreign audience—The whole secret Of a good speaking Voice, the Englishwoman declares, Is to enunciate clearly And without the hasty slurring of Vowels or the harsh Nasal twang Of consonants—Speech, she says, is Stressed less than many Other arts of today, Yet it is a Vastly important detail Of personal charm And a success of which we All well might Take cognizance—

TO SING "THE SWAN"
Shaking request letters out of their coat collars and trouser cuffs, the Seiberling Singers will emerge from a heap of mail urging repetitions of this or that old favorite, and sing a brand new one tonight. The quartet is going to do vocally that loveliest of instrumental pieces—Saint Saens' "The Swan."

POPULAR WITH HOUSEWIVES

Miss Winifred Wishard

Radio Institute Has Great Audience of Women for Daily Programs

NEW YORK, April 4.—High up in a skyscraper office building here, two young men were concocting a plot. It was a little over a year ago, and across a desk they were scheming to woo a married woman—one with children.

Scotch pads were full of figures. Plans were presented, discussed and discarded. Finally the two agreed on the following action: They were to discard the accepted procedure of wooing in the moonlight; they were to wait until daylight, about noon, and while her husband was at work and her children in school they'd set about winning her affections.

It didn't take them long to get started. And they soon received more than 100,000 letters from her! But they weren't love letters!

The two villains of this story were officials of the Radio Household institute, which presents a morning household program over the Red network of the NBC. The "wooded" wife and mother was the American housewife who, the two men believed, could be reached more readily at the time they agreed upon. The letters were fan

(Continued On Page 3)

EXTENSION OF AMATEUR RADIO SYSTEM PLAN

WASHINGTON, April 4.—The emergency news service rendered by members of the American Radio Relay league in co-operation with the U. S. Army Signal corps has proven so valuable in the past that officials of these organizations have decided to revise the army-amateur system and increase its scope.

During the last three years this amateur radio transmitting group has proved its worth in broadcasting emergency reports of tornadoes, floods, and other disasters in which ordinary land wires were rendered useless.

"Three years of operation under the original plan have demonstrated the advisability of revising that plan to provide for an expansion of the system to cover more thoroughly all parts of the United States," says Major General George

(Continued On Page 9)

SMALL STATION WILL DROP OUT. SAYS PIONEER

CHICAGO, April 4.—High cost is going to solve the broadcasting problem, says Morgan L. Eastman, pioneer broadcaster and manager of WENR, Chicago.

Eastman points to the fact, revealed by fan mail, that greater demands are being made upon the men behind the microphone for bigger and better—which means much more costly—programs, and that this trend will cause the smaller and less competent broadcasters to drop out of the field.

"Today there is little competition as keen as that between radio broadcasting stations," declares Eastman. "The result is that the standard of programs is being raised higher and higher every week and the cost has gone up by leaps and bounds."

Better Receivers
"Better receiving sets have made it possible for people living almost anywhere to pick up stations that are putting on the good programs—the stations that are spending large sums of money to please the listeners. It follows that the listeners generally, having their choice, are becoming more and more intolerant of mediocre entertainment."

Eastman points out that the investment on a big station today runs from \$750,000 to \$1,000,000 and that cost of maintaining it, including operation and talent, would run anywhere from \$150,000 to \$200,000 or more a year. Some of the costs he mentions are:

Transmitter, \$5000 to \$40,000; studio and office rent, \$15,000 to \$40,000; pickup equipment, \$10,000 to \$15,000; depreciation on transmitter, \$60,000 to \$120,000; music and supplies, \$7000 to \$11,000.

Many Expense Items
In addition there are insurance, taxes and other costs, not to speak of the high cost of talent, that boosts this annual sum up high. Ordinary microphones cost \$75 each, while the new type of condenser mike has a price of \$400. And WENR has 21 of the latter type.

Tubes have to be replaced after about 1000 hours of usage, which is about every four months, for the average station. And each tube costs from \$75 to \$300 each. "After all," Eastman concludes, "it is the radio listener who should be given first consideration and the stations that spend the most money in a sincere effort to give the listening public the highest class of entertainment will remain on the air. Those that do not will voluntarily discontinue, sooner or later."

THESE RADIO PICTURES
Seventeen stations are now licensed for television. They will broadcast on three short wave bands, running from 2000 kilocycles to 2950 kilocycles.

Follow ROADS TO ROMANCE ON YOUR OWN PACIFIC COAST

"Amazing Satisfaction"—
says Hollywood florist

As manager of the Alpha Floral Company of Hollywood, Mr. Sidney Mills watches carefully the performance of the five cars operated by the company.

"We have used Associated Gasoline and Cyclo Motor Oil over a period of eighteen months," he states. "We are pleased to write

you that we have had entire satisfaction . . . in fact we have found our maintenance expense to be noticeably decreased."

Mills found that Associated Gasoline gives "amazing satisfaction" in power and mileage and in instantaneous starting. It is a clean

fuel, refined to ensure complete combustion and to minimize carbon formation and crankcase dilution.

Drive in at any red, green and cream station and try Associated Gasoline. You'll know new driving pleasure.

TRACY, notorious early-day western bandit, leveled his rifle at his victims while his sweet-heart, Genie, went among them collecting money, jewels and other booty of the hold-up.

Romantic bits of western history such as this are revealed in the Associated Oil Company radio program, "Roads to Romance."

Listen in each Wednesday evening, 8 to 8:30 p. m., on stations KPO-San Francisco; KGO-Oakland; KFI-Los Angeles; KGW-Portland; KOMO-Seattle; KHQ-Spokane.

COLLEGE MEN ARE FAVORED AS ANNOUNCERS

College graduates now find an outlet for their talents in radio. With more than 600 stations in the country, using from one to a dozen announcers, many college graduates are absorbed. In addition to the announcer staff, there are possibilities for college men as continuity writers, as performers, and as advertising salesmen, while the man who claims a degree in electrical engineering and knows radio has an opportunity on the technical staff of a radio station.

College men whose activities, while in college, have included membership in the dramatic and musical clubs, have the advantage over those who have started in athletics. The ability to tear off three yards through a stubborn defense wall is less important in a radio station than the talent to sing, "Give a Man a Horse He Can Ride." Training in college dramatic societies will fit the graduate to take a part in those playlets which are gaining daily in public favor.

Bit of Everything

The announcer of the modern broadcasting station must be a little bit of everything; he must be equipped to double in brass as the old-timers did in the Uncle Tom Cabin shows.

An announcer must have a pleasing voice and a manner of using the voice without giving offense to the listeners. Many a good voice has been spoiled by affectation and a trick of patronizing listeners.

If an announcer must offer elementary information to listeners, he is required to do it inoffensively. The successful announcer knows correct English and accurate pronunciation and he should have some knowledge of foreign tongues—French, German, and Italian.

Distance Fans Of East Get Special Programs Of KHJ

KHJ, the Los Angeles station of the Don Lee Broadcasting system, boasts of a midnight hour of entertainment, containing three outstanding features. One of the paramount reasons for the hour is to enable DX fans from the eastern slopes of the United States to have an object to fish for in the wee small hours of the morning, when reception is not interfered with by their local stations.

Headlining on this period is Weeley B. Tourtellotte, concert organist, who plays selections on the Don Lee organ. Mr. Tourtellotte is a University of Pennsylvania boy and is well known in eastern cities for his artistry at the organ console.

Another feature of this presentation is that each night a trio, made up of members of the Don Lee Symphony orchestra, intersperse the organ numbers with various types of characteristic music.

Headlining on this period is Weeley B. Tourtellotte, concert organist, who plays selections on the Don Lee organ. Mr. Tourtellotte is a University of Pennsylvania boy and is well known in eastern cities for his artistry at the organ console.

FOR RADIO BOARD?

Mentioned to succeed Sam Pickard as members of the Federal Radio Commission representing the fourth zone is Major General Charles McKinley Saltzman, former chief of the U. S. Army Signal Corps. Formal announcement of Saltzman's appointment is being withheld until President Hoover selects a Democrat to represent the first zone to succeed O. H. Caldwell, recently resigned. General Saltzman is a native of Iowa.

TUBE SALE REACHES \$110,000,000 MARK

In 1928 the retail sales of radio tubes totaled \$110,000,000. Sales of tubes have maintained a steady and rapid rate of increase since 1919 when sales totaled \$300,000. In 1922 tube sales reached \$6,000,000 and jumped to \$17,000,000 the following year. The succeeding years' totals reached \$36,000,000, \$48,000,000, \$58,000,000 and in 1927 the figure was \$67,000,000. The 1928 figure represents a much greater proportional sale of tubes due to lower average cost per tube.

Although there are more than 80 manufacturers of radio tubes in production today, the explicit definition of types of vacuum tubes contained in the National Electric Manufacturers' association standards, published as part of the fourth edition of the NEMA Handbook of Radio Standards, has protected the general public and greatly assisted the industry in sales development.

ASHFORD ANNOUNCES NEW RADIOLA MODEL

A new Radiola combination, which combines distinctive features of cabinet design with low cost, was announced yesterday by Bill Ashford, of the Radio Den, Radiola dealers. The new receiver, which is designated Radiola 33, is of the console type and stands at a height convenient for tuning from either a sitting or standing position. Tuning is accomplished by a single knob; the translucent scale of the selector dial is illuminated from the inside when the set is in operation.

A volume control regulates the power output of the receiver, and another switch turns the power on and off. Skillfully painted panels which reproduce the grain of African mahogany, retain the visual strength of metallic construction in this receiver.

PUBLIC MUSIC TASTE PRAISED BY DAMROSCH

NEW YORK CITY, April 4.—Walter Damrosch is an interview said that his radio audiences are displaying "an amazing intelligence." Their requests for special works, he says, show an appreciation of the finest in symphonic music.

"In fact," he said, "they are exhibiting such a growing appetite that I have decided to perform next winter a complete symphony once each month in my General Electric series. Portions of symphonies no longer satisfy them."

"The growth of interest and knowledge of symphonic music during the three years that I have been giving radio concerts is little short of marvelous. In the beginning I avoided playing the more intricate compositions, though I have never played anything over the air that I would not perform at Carnegie hall."

"I felt during those early months that I must throw my crumbs a long way to entice the birds without frightening them. Now these birds of the radio audience are entirely unafraid. They are ready to come, some 8,000,000 of them, more than halfway for any musical fare I offer them. They eat out of my hands and alight on my shoulders as intimately and confidently as the doves of St. Marks. I feel that they are capable of digesting and appreciating practically anything in the symphonic repertoire. They are not even frightened off by modern music."

"It is encouraging evidence of what is taking place. From the first I was confident the radio would bring about a new era in the history of symphonic music in this country. But I had no idea the results would become apparent so quickly. Radio audiences, I feel, are equal to exactly the same type of symphonic program that is given in our metropolitan concert halls."

BIGGEST RECTIFIER BOUGHT BY RUSSIA

NEW YORK CITY, April 4.—The Radio Corporation of America has announced the sale to the Russian government of the world's largest high-voltage rectifier, which is now nearing completion in the laboratories of the General Electric company, in Schenectady. The purchase was made by the Electro-Technical Trust of Weak Currents in Russia, a government-owned trust represented in New York by the Amtorg Trading company.

The giant rectifier operates on the mercury vapor principle, and is capable of a power output of 750 kilowatts and a voltage of 15,000 volts. The rectifier will not be delivered until the early part of April after it has been subjected to a series of tests.

The purchase of the 750-kilowatt mercury vapor rectifier is one of a series of order for radio equipment placed with the Radio Corporation by the Soviet authorities beginning in July, 1928. Thus far the Russian government has purchased from the American company radio transmitting and receiving apparatus having an approximate total value in excess of \$600,000.

Protect orchard profits now!

Clean citrus orchards are the key to finer crops and bigger profits. Spring spraying with NICONA will control aphids, red spider, thrips and mealy bugs with economy and thoroughness.

NICONA contains the best of the summer oils plus a virulent and powerful form of nicotine—the recognized killer of orchard pests. It is easy to mix with water and is pleasant to use. It leaves the tree soon after application, not interfering with tree or fruit activities, yet is powerful and active enough to control small off-hatch scale as well.

Call one of our offices today for spraying information.

NICONA comes in small packages for garden and nursery use! Ask your dealer!

News for the Fans!

DO RADIO FANS OF MARS TUNE U. S. STATIONS?

If other planets are inhabited, the radio broadcasts might readily be heard by the population of Mars, according to the calculations of leading scientists and radio engineers. Just how far radio waves do penetrate the outer ether is furnishing a topic of absorbing interest and considerable speculation which may eventually lead to astonishing discoveries.

It is estimated by experts that radio waves, like light, travel at the rate of 186,284 miles a second. Such rapidity causes radio waves to be heard in every state in the Union at practically the same instant that the sounds are created by the orchestra. Radio music from the United States is picked up in Canada, Mexico and Cuba and the tunes even are heard in Europe, whence it is carried by low wavelengths.

Even more interesting, however, is the question of whether radio music, penetrating outer space far beyond the earth, may not reach other planets before the sound waves die down. Naturally, it cannot be definitely established at just what distant point radio vibrations cease, but, based on the

figures of the passage of light and the known speed of sound waves, music broadcast, for instance, in September, 1928, would now be 3,444,316,646,400 miles away on their passage to the point where these waves begin to fade out and finally become non-existent. Whether or not these waves actually travel this far cannot, of course, be definitely established, but the vast distance of more than 344,000,000,000 miles is well within the known limits of the universe. Mars is estimated to be 35,000,000 miles away when it is closest to the earth. Therefore, the notes of the broadcast of seven months ago now are more than 344 billion miles beyond Mars on their journey into space. In fact, scientists say, that if the being who inhabit Mars were equipped with suitable radio receiving sets, they would be able to pick up programs broadcast from any point in the United States in 190 seconds.

CRAVEN RETURNS TO DUTY IN U. S. NAVY

WASHINGTON, April 4.—Lt. Com. T. A. M. Craven, technical adviser to the Federal Radio Commission on short-wave communications, returned to the navy for regular duty on March 15. His services had been loaned to the commission to assist it in the allocation of both continental and transoceanic channels. In connection with Commander Craven's transfer, it was stated at the commission that probably he will not be succeeded by another naval officer because the commission has specific appropriations for the maintenance of an engineering division made up of civilian personnel.

BOTH 'KNOW THEIR STUFF'

Gilda Gray—and Charlie, "her seal coat."

Gilda Gray and Seal Vie For Honors Before Microphone

NEW YORK, April 4.—Just a bit of tanbark was needed to turn the Fifth avenue studios of the National Broadcasting company into a circus recently. When Charlie, the trained seal, waddled into an elevator and rode up to the thirteenth floor, he brought with him all the necessary atmosphere with him—notably a distinctly fishy smell.

Charlie is a temperamental prima donna. Accustomed to spending half of each day in his tank and going on for his turn as soon as he reaches the theater where he is appearing, he found it distinctly irksome waiting in the studio for his turn to go on the air in the program. Nor did the admiring throng of onlookers appease his ego.

The great awkward creature was more or less peaceful while the orchestra played. But he was distinctly restless and even annoyed when the announcer spoke into the microphone.

Every few minutes Charlie's face was washed with a huge sponge dripping with water. From time to time he was fed a good sized chunk of fish.

At the beginning of the program, Gilda Gray came forward to be presented to Charlie. Charlie does a "Gilda Gray" in his act. For that lady's benefit his grass skirt was tied about his capacious waist and he waggled with true Gilda Gray sinuosity. Later Gilda and Charlie posed side by side for a camera.

"Gilda Gray and her seal coat," said Gilda, offering a title for the photograph. When it was over, Charlie followed Mr. Huling into the elevator, like a dog following his master. Then he took a taxi trip home.

HOME PROGRAM VERY POPULAR WITH WOMEN

(Continued from Page 6)

mail, health and household questions, requests for recipes, cooking booklets and related information.

Guided By Letters

The plot marked the beginning of the Radio Household Institute programs. It started on the air with only 16 stations using its services. At present more than 30 are on its network.

At the helm of the institute is Miss Winifred Wishard, who acts as director and conducts the junior cooking class. She has a hand in preparing all the programs and handles all the fan mail.

"The letters our audience sends in are the most important element in our work," she says. "They guide us and they give us the enthusiasm to keep on striving for better and more useful and more entertaining programs."

Acting as her chief aide on the dramatic staff is William Brenton. He is a graduate of Princeton university and while there was a director of the Princeton Triangle Club theater.

It's Entertaining, Too

The marked success of this feature is attributed to its line of entertainment. It does not limit itself to ordinary household ad-

GRANITE MEMORIAL TO RADIO MEN LOST WHILE AT POST OF DUTY AT SEA TO BE RESTORED

NEW YORK CITY, April 4.—Fourteen years ago, a granite group to perpetuate the memory of the heroes of the wireless key was unveiled in Battery Park, New York. On the face of the shaft forming part of the memorial—the only one of its kind in the world—were chiselled the names of nine men.

Each year the action of the weather made the lettering on the shaft less and less legible, until it was in danger of disappearing entirely. Those other knights of the key who still carry its glorious traditions forward, and others in whose memory the deeds of these heroic men are fresh, decided that this should not be. As a result, the identity of the wireless heroes, who have since been joined by 15 others, is now indelibly engraved in bronze. Their fame has been made more secure by the substitution of bronze name-plates for the scarcely decipherable markings on the granite. In addition, each side of the shaft has been provided with a bronze plaque to which other name-plates may be fastened when the hungry seas take further toll of hero martyrs.

When the work of placing the bronze plates was completed recently there were discovered among the names on the shaft three which had not been there before. One was that of Michael J. O'Loughlin, wireless operator aboard the "Vestris" when it sank last November off the Virginia coast. The other two were those of Charles F. Ruble and J. Maurice Black. The former was only 24 when the "Elkton" went down near the Philippines in February, 1927. Black was radio man on the David C. Reid, which was lost in the South Atlantic on October 14, 1928.

The change in the appearance of the shaft recalls the circumstances surrounding the building of the memorial, which besides the shaft consists of two benches, one on either side, and a circular foun-

tain forming the center of the group.

It was the death of Jack Phillips, who went down with the "Titanic" on April 15, 1912, that inspired the memorial. Phillips stayed at his key until his apparatus would no longer function. He was picked up by a life raft on which he later died from exposure. Many more would have lost their lives had not Phillips spent the day before the disaster repairing the ship's radio equipment, which had broken down.

The names appearing on the shaft at the time of dedication were those of wireless operators who, in the words of the inscription cut in the granite, had been "lost at sea at their post of duty" in the six-year period preceding 1915. Besides Phillips, they were George Eccles, Stephen F. Szepanek, Lawrence Prudhont, Donald C. Perkins, Ferdinand J. Kuehn, Walter E. Reker, Clifton J. Fleming and Harry F. Otto.

STATE OWNED

WOS, Jefferson City, Mo., is said to be the only state-owned radio station in the country. It is located in the dome of the State Capitol building.

LICENSE RENEWED FOR WAVE WOBBLER

WASHINGTON, April 4.—The federal radio commission granted the application of WSGH-WSDA, Brooklyn, N. Y., for renewal of its broadcasting license.

WSGH-WSDA was cited by the commission to show cause why its license should not be revoked because of deviation from its assigned frequency in violation of commission regulations. William A. Leahy, Washington attorney, appearing for the station, declared that modern control equipment had been installed to correct the fault of deviation.

SEWING MACHINES repaired. Fix-It Shop, 105 E. 3rd.—Adv.

EXTENSION OF AMATEUR RADIO SYSTEM PLAN

(Continued from Page 6)
S. Gibbs, chief army signal officer. Amateur Radio Net

The present plan, which went into effect March 1, calls for the banding together of "ham" operators in what is known as the Army Amateur Radio Net. This is composed of one station in each army corps area, of which there are nine in this country, and in each department in which amateur activities are permitted. The control station of this system is at Fort Monmouth, N. J.

Each corps area has its own amateur radio net, taking in one station in the capital of each of the states in the area. This network is subdivided into approximately five geographical areas, known as state amateur radio nets, with the state capital having the net control station.

Connected with the state amateur radio nets will be the district amateur radio nets, situated in each state so as to give the best possible service.

The last division of this large network is the local amateur radio net, which is composed of all amateurs in local areas.

Centralized Control

At the head of this league is the chief signal officer of the army. Other officials are corps area signal officers. These officers will appoint an officer to act as corps area liaison agent between a representative of the transmitting radio amateurs of that corps area and the corps area signal officer.

One amateur, known as the "Radio Aide," will represent amateurs of each corps area. A "Chief Radio Aide" will act as army representative of all transmitting amateurs of the United States.

The army amateur net control station at Fort Monmouth, N. J., will have charge of the dissemination of all material to amateur stations.

Channel Ordered Kept Clear Even When Not In Use

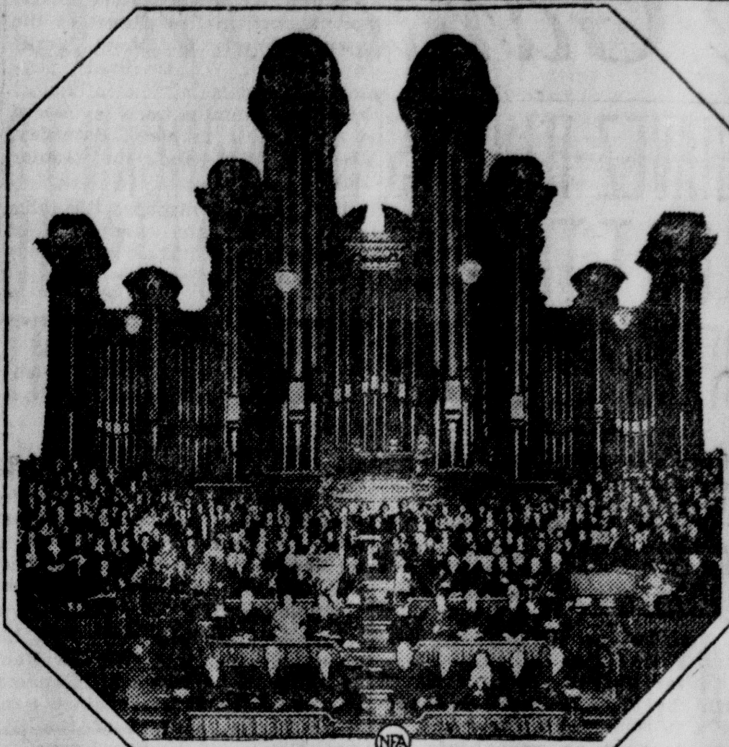

WASHINGTON, April 4.—The Federal Radio commission has denied the application of WAAAT, Jersey City, N. J., for the use of 1070 kc after midnight, Cleveland time, when WTAM, Cleveland, signs off.

WTAM has been assigned this frequency as a cleared channel, and WAAAT is licensed to operate with 300 watts until sunset in Cleveland. WTAM opposed the application on the ground that, while it usually signs off at midnight, it often continues beyond that time with special programs, tests and try-outs of new talent.

WBAL, Baltimore, which operates on 1060 kc, also opposed the application on the ground that it now suffers cross-talk.

MORMON ORGAN GOES ON AIR

The music of one of the world's most famous organs and choir groups is brought to radio listeners through station KSL, Salt Lake City. The organ is located in the Mormon tabernacle in that city and was constructed 60 years ago. It was built by early Mormon settlers out of white vertical grain pine and contains seven divisions. The choir, organized by President Brigham Young in early Mormon days, is composed of 200 voices.

KFI'S PROGRAM OF FARM TALKS IS ANNOUNCED

Beginning each day at 12 noon and continuing 10 minutes, talks of interest to farmers, growers and producers will be given during the week beginning April 8 under the auspices of the agricultural extension service, co-operating with radio station KFI. The following program of daily talks is announced by the farm advisor:

April 8, "Chicken Pox Vaccination," Dr. J. R. Beach, University of California, Berkeley.

April 9, "Conservation Begins at Home," Judge H. I. Cruzan, vice president Los Angeles Conservation association.

April 10, "Protection of Our Native Flora by Law," John P. Coy, horticultural commissioner, San Bernardino.

April 11, "Agricultural Extension Work in Southern California," Prof. L. B. Smith, University of California, Berkeley.

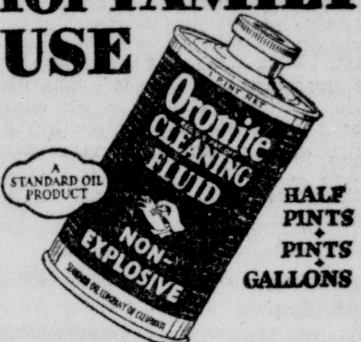

April 12, "Problems in Land Settlement," Dr. George P. Clements, manager agricultural department, Los Angeles Chamber of Commerce.

Orange Y. Plans Osceola Outing

ORANGE, April 4.—An enthusiastic rally of Y. M. C. A. members was held in the "Y" building here last night, when plans were made for the summer encampment at Camp Osceola July 2 to July 18.

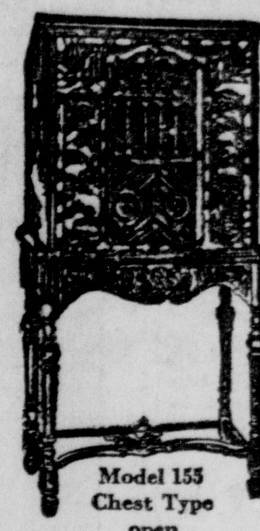

Members of the organization who were at the camp last summer were presented with badges. Experiences of camp life were related and those planning to attend this year were given a glimpse of what was in store for them. The rally was in charge of C. E. Morrow, secretary of the local "Y."

CLASS D BALL TEAM FOR S. A. PROBABLE

Stars Get Nine Home Games In County Night League

SCHEDULE WILL BEGIN MAY 10: 6 CITIES ENTER

Getting all the best of the draw for games, Santa Ana's Stars, night baseball champions of Southern California, will play 9 of their 15 Orange County league games in their own park at Sixth and Olive streets this summer.

The complete schedule, calling for a season of more than three months, was adopted at a meeting of the Orange County Night Baseball association at Anaheim last night. Santa Ana will open its campaign May 10 against Garden Grove in the Bowl here.

Teams will play around three times with games booked for every Friday night. Garden Grove, Anaheim and Olive will be seen here twice. Huntington Beach and Orange will call only once, on the second round. La Habra, resigned its franchise and Eubank was suspended for lack of interest. San Clemente and the Newport Harbor section were expected to apply for membership but when no applications were received the association voted to conduct its schedule with the old faithful six cities.

Vic Baden and Jimmie Heffron, president and secretary-treasurer, respectively, for several years both tendered their resignations which were accepted, with regrets. George Peterson, of Costa Mesa, state motor officer, was elected president of the league and Lee C. McClelland, of Olive, was named secretary-treasurer.

The only new rule of importance passed was that which this year will force a player to reside within the district for which he plays. The old regulation read that a player

(Continued on Page 11)

FOUR TEAMS STAND OUT IN CAGE PLAY

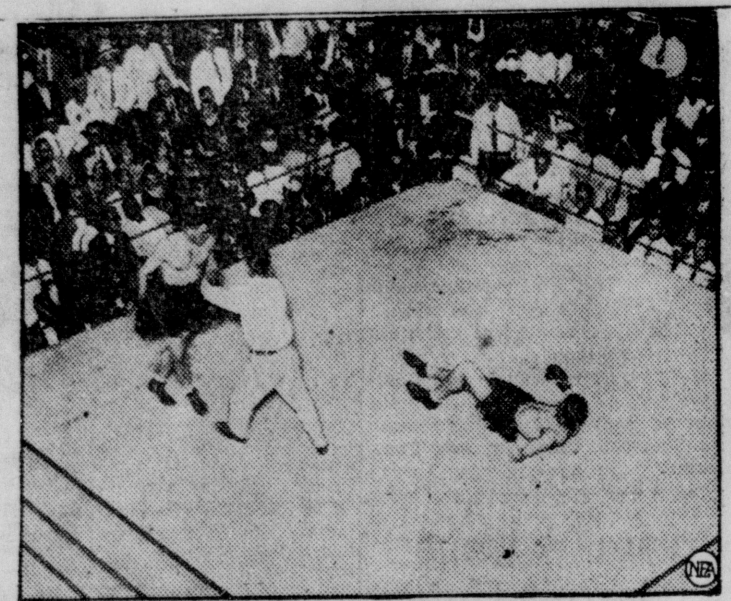

BARTLETT GYMNASIUM CHICAGO, April 4.—Four favorites stood out today as 16 teams, survivors of the 40 original starters, began third round play in the University of Chicago's eleventh annual national interscholastic basketball tournament.

Far enough into the tournament play for their merits and demerits to stand out, Ashland, Ky., Athens, Texas, Vienna, Ga., and Wheeling, West Va., were conceded a chance to win the championship.

The 12 other teams which reached the third round are Naugatuck, Conn., College Grove, Tenn., Pocatello, Idaho; Jackson, Mich., Yankton, So. Dak.; Jones, Colo.; Warren, Ark.; Raton, New Mex.; Wheeler, Miss.; Jena, La.; Classen high of Oklahoma City, Okla., and Heath, Ky.

BASQUE CHOPS ANOTHER BLOCK

Another spurt in the meteoric rise of Paulino Uzcudum, Spanish heavyweight flash, is pictured here. You see the Basque chopper of blocks, both wooden and human, being directed to his corner after taking only one minute and 22 seconds to knock out Francisco Cruz, champion of Portugal, at San Juan, Porto Rico.

PLAYERS LIBERATED BY LANDIS MAKE THOUSANDS SIGNING WITH OTHER TEAMS AS FREE AGENTS

NEW YORK, April 4.—Perhaps a few owners are piqued at Judge Landis for having made free agents of a number of ball players in recent weeks, but those lucky fellows who were given the opportunity of peddling their services to the highest bidder probably are thankful that the judge acted as he did.

In view of the fact that each player made a free agent profited to the extent of several thousands of dollars, being made a free agent might be termed one of the luckiest breaks that ever befell a ball player.

SEAT CAPACITY OF ROSE BOWL TO BE 90,000

PASADENA, April 4.—The Rose Bowl is free of debt for the first time since its construction. It became known today when the Tournament of Roses association announced that final payment of \$40,000 had cleared the \$500,000 mortgage and that plans were now underway to increase the seating capacity to 90,000.

Receipts from the New Year's East-West football games have proved a great factor in freeing the huge amphitheater from debt, according to Harlan W. Hall, secretary of the association.

In increasing the present seat capacity of 74,000 to 90,000, the wooden sections of the bowl will be replaced with concrete structures, Hall said.

DIRT does not penetrate the surface—it is easily washed away if the walls are painted with

CHAVEZ-RIVERS BOUT TUESDAY DEFINITELY ON

Despite Zenaydo Chavez's narrow escape from defeat at the hands of Johnny Nandez and Jimmie Rivers' unfortunate experience with a adrenaline during his match with Billy Clark Tuesday night, the two rival Orange County welterweights will headline next week's bout show at the Orange County Athletic club.

Chavez and Rivers have signed with the state boxing commission for a 10-round main event and the bout is "on" as announced, Kid Mexico, matchmaker for the local club announced definitely today.

It will be the first time either boxer has attempted to go 10 rounds, the first long bout ever held here and more money will be awarded the principals than ever has been paid for one single match in Santa Ana, or less.

The boys will fight at catchweights. Chavez is expected to come in the ring at 145 pounds while Rivers probably will strip to 147 or 148. It will not be necessary for either to make weight.

Joey Valarde, flashy San Bernardino 122-pounder who gave a game even if losing demonstration against Trip Lambaco here several weeks ago, will face Joe Soto, a high priced miltman from San Francisco in the semi-windup. They will go six rounds or less.

Hi Gil, popular local welterweight, and Jack Stovall, San Bernardino colored boy, collide in the feature preliminary over four rounds.

"Frenchy" Gillette, who gave Zenaydo Chavez a hard battle at the O. C. A. C. last fall, meets Teddy Palacios in one of the preliminaries. Palacios got a draw with Leonard Bennett in the second spot at the Olympic last week.

Lucas Arzadon, a Filipino, and Nino Perez, another San Bernardino youngster, will open the show. They are 112 pounders.

"GOLDIE" HESS WINS

OCEAN PARK, April 4.—"Goldie" Hess took a decision over Clark Anderson here last night in their 8-round main event. Leonard Allen and Harold Highsmith fought a six round draw.

MacKain Didn't Suffer

Shortly after Ferrell signed with the Browns, Judge Landis ruled Harold MacKain, a young pitcher, a free agent, MacKain caught on with the White Sox and, while it isn't known what terms he received, it is known that a number of clubs regarded him as a great young prospect and made offers for him.

Therefore, it may be concluded that he didn't suffer in joining the Chicago club.

Judge Landis, just a few days ago and at one grand swoop, severed nine players from their owners of the moment and made them all free agents. The charge, as it had been in the Ferrell and MacKain case, was that these players had been covered up in deals between minor and major league clubs. In reality, the charge should have been that they weren't covered up well enough.

At any rate, these nine players put themselves on the market, and quite a number of clubs entered the competitive bidding for their services.

Caught On In Majors

Two caught on with major league clubs, Ralph Judd, a pitcher taken away from Washington, signed with the Giants and received a \$6000 bonus plus a \$5000 yearly salary, and Roy Spencer was grabbed by Washington as a catcher. He is said to have been paid a \$15,000 bonus and a fat contract to sign.

Ernie Wingard tried to get a \$15,000 bonus and a two-year contract at \$10,000 per month from Uncle Robby and Brooklyn but failed. He did get a \$7500 bonus and big salary offer from Toledo in the American Association and accepted that.

Guy Cantrell, one of the most valuable players turned loose, will pitch for Toronto this season. His services are to be paid for handsomely and he also received an \$8500 bonus for joining Toronto.

Melburn Simons, a young outfielder, is with Louisville in the American Association. His terms included a \$6000 bonus.

Glanzer Picks Up \$3400

Whitney Glanzer, the veteran pitcher, picked the Dallas Texas league club for a \$3400 bonus and \$6000 as monthly salary.

Jay Partridge's services as a second baseman this summer will cost the Nashville team more than \$10,000 in bonus and salary.

Claude Jonnard and Kyle Anderson haven't signed yet. Anderson's plans haven't been noised about any but Jonnard is fairly certain to end up with an American Association club. He has been offered as much as \$9000 bonus to sign with Indianapolis.

BITTO BEATS CARDOZA

WILMINGTON, April 4.—Joe Bitto took a four round decision over Joe Cardoza here last night. In the semi-windup Bobby Nears defeated Oscar Rankin.

SATANIC, THOSE SCRIBES

Some newspapermen, friends of Al's, made Tampa on their tour of the southern training camps and they invited Al to dinner with them. Along with them was Jim Downing, the popular Tampa boxing promoter.

It was after nine o'clock when the newspapermen finished their stories and it was later when they arrived at a famous eating place in the Latin quarter. Downing, a great Tampa booster, insisted upon showing the party the sights and they finally wound up in a night club. Schacht was recognized and he was forced to do some entertaining.

The slipped by and it was too early in the morning to mention

TOD MORGAN TO DEFEND FISTIC TITLE TONIGHT

BY DAN CAMPBELL
United Press Staff Correspondent
LOS ANGELES, April 4.—The descendants of two ancient enemies were to meet here tonight in a modern battle that has for its stake the world's junior lightweight championship.

Tod Morgan, who claims as his ancestor, none other than Sir Henry Morgan, conqueror of Panama, will defend his title against Santiago Zorilla, product of the San Blas jungles of the Canal zone.

It was unlikely that the fans were moved one way or the other by Sir Henry's early conquest of Zorilla's forebears, but Tod Morgan will enter the ring a slight favorite to retain his crown.

The champion, who at the age of 25 has ten years' experience to his credit, will have a number of advantages over the 21-year-old Indian.

Zorilla has been fighting in this country less than two years. He is at a disadvantage in height, reach and weight, although he is heavier than at the time he met Morgan in San Francisco and earned a draw.

The Indian boy was discovered by Wirt Ross, his present manager, some five years ago. In that primitive section of Panama where fishing is carried on with a bow and arrow and the only transportation coconut boat, Ross found Zorilla climbing trees and playing on the water front.

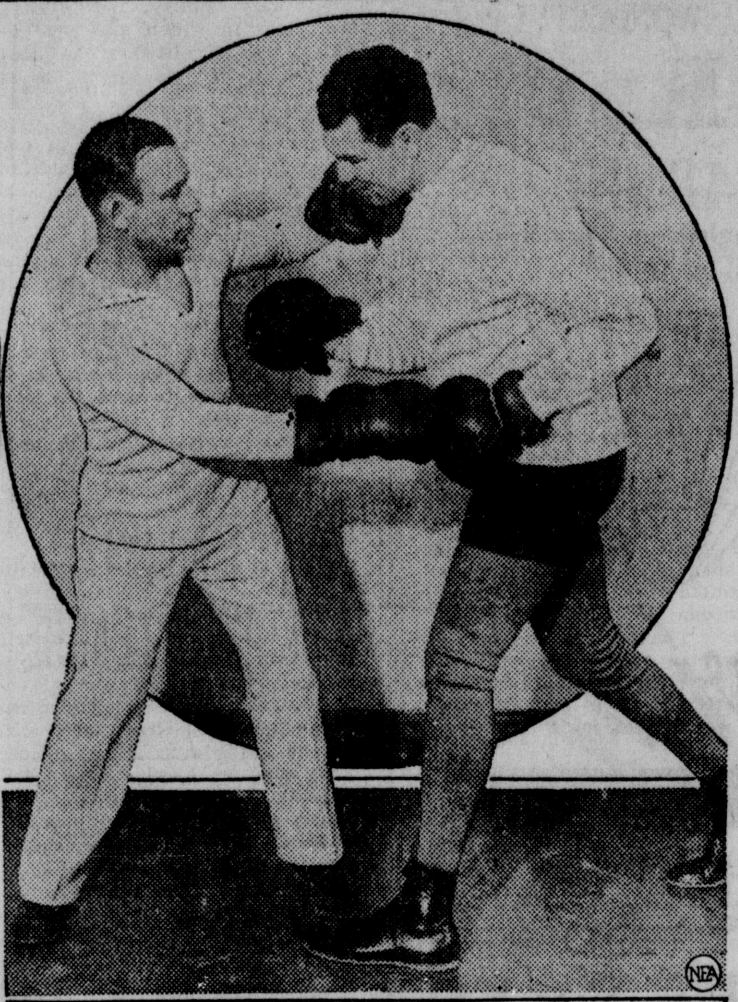

The two came to this country in 1927. Since then Zorilla has defeated both "Bud" Taylor and Joey Sangor, and although the smart money is against him tonight he is the choice of those who mix sentiment with their boxing enthusiasm.

Zorilla is not a knock-out puncher but rather depends on a weaving, bobbing style.

Unless the jungle boy wins the title or the gate exceeds \$20,000, he will receive nothing but the punishment Morgan hands out tonight, as his end of the affair. For Zorilla is fighting for virtually nothing the agreement being that he is to get 50 per cent of all over \$20,000, while Morgan will receive \$15,500 for defending his title.

JACK EYEING THRONE AGAIN?

It's whispered along the fistic rialto that the old Man Mauler may come back. And, as if bearing out these rumors despite previous denials, former Champion William Harrison Dempsey here is pictured as he went into serious training in a New York gymnasium. Dempsey is seen as a likely opponent for Paulino Uzcudum, Basque woodsman who has forged to the front in the heavyweight division.

PHILADELPHIA ATHLETICS LOOK ANYTHING BUT LIKE REAL BALL CLUB; STAR HURLERS DISABLED

By GEORGE KIRKSEY
(United Press Staff Correspondent)

NEW YORK, April 4.—Few great baseball machines have looked worse in the spring than the Philadelphia Athletics during the past few weeks. Connie Mack's club has power, pitching strength and experience under hot fire during a grueling pennant race, but the Athletics are coming north looking like anything but a pennant contender.

Ball clubs that bloom in the spring usually wilt before September and the present plight of the Athletics may be an ominous foreboding for the New York Yankees.

For the present, however, it is Mack, and not Miller Huggins, who must do the worrying.

Besides the Athletics' "convertible-collapsible" infield Mack has a badly-riddled pitching staff without the services of its leading members.

"Lefty" Grove may be so much dead weight on Mack's hands for an indefinite period. The lean southpaw has a maimed finger on his pitching hand.

Howard Ehmke, who seemed to be in better condition than usual this spring, was called away from the team by the illness of his wife and he is now at her bedside in Detroit.

George Earnshaw has been retarded in his training because of groin trouble, due to adhesions.

Between the three of them they won 40 games last season, despite the fact that Earnshaw didn't join the club until late in the season and Ehmke wasn't in the best of shape.

Joe Boley has a "dead" arm and may not play at all this season which makes uncertain every place in the infield but second base, where reliable Max Bishop is playing sensationally.

Card Boss Lauds Trio Of Rookies

MACON, Ga., April 4.—Three rookies—Pitchers Ray Lingrel, Shortstop Charley Gelbert and Third Baseman Eddie Delker drew praise from Manager Billy Southworth today as a result of their work against the Columbus American association club. The Cards won, 2 to 0.

PEREGRINA VICTOR AT PICO'S OPENING

Although inclement weather resulted in poor attendance, the new Pico boxing arena opened its doors last night with a popular card of six close and interesting matches.

Joe Peregrina's string of knock-out victories was stopped abruptly by Timothy Charles, Kentucky 165-pounder, in the main event but the Mexican star punched his way to a decision in six rounds. It was so close that many of the cash customers hooded Referee Freddie Gilmore's verdict.

Young Bello outpointed Joe Pimental in a six-round semi-windup.

Jackie Stewart, Santa Ana, beat Frank Leonard, colored, in a close feature preliminary. Cliff Burrier, Santa Ana, whipped Tiger Napoleon. Jimmy Lyle licked Frank Berry and Tommy Huffman defeated "Red" Wells. Every bout went the limit.

ORGANIZER OF LEAGUE WOULD USE FAIR PARK

Santa Ana today was virtually assured of representation in the California State league, a Class D baseball organization now in the final stages of formation.

Harry Defty, a member of the staff of A. G. Spalding and Brothers, who has done the bulk of the promotion work for the circuit, was in the city with a plan to locate a team at the Orange County Fair grounds.

The team, he indicated, would be the National Baseball school of Santa Monica which is managed by Jess Orndorff, former major league catcher, and which played the Fair grounds several times during the Portland training camp season.

This club, it is understood, would have the financial and moral support of the Los Angeles team of the Pacific Coast league.

Santa Ana would replace Ventura in the Class D league. Ventura first took a franchise and then was unable to make proper connections. San Diego, Bakersfield and San Bernardino already have perfected their arrangements and are set to start the season.

Hollywood is going to sponsor San Diego and Oakland will give backing to Bakersfield. Sam Agnew, veteran Hollywood catcher, is going to manage the San Diego team and Louis Guisto will direct affairs at Bakersfield.

"Rube" Ellis will run the San Bernardino outfit and it is likely that Orndorff will come here in a managerial capacity.

The State league will begin its campaign April 10 but Santa Ana, taking over the Ventura franchise, would have no at-home contests until April 17.

Before they had heard all the details of the venture, officials of the Orange County Fair association, which controls the baseball diamond at the Fair grounds, with held opinion but it was learned on good authority that the board would have no objections to leasing the park if "suitable arrangements" are made.

Defty said that officials of the National Baseball school probably would undertake to finance their part of the league by selling season tickets, good for approximately 100 games, at \$25 each.

The Class D league will play a split season with the winners meeting in a championship series, it is understood.

SONNENBERG IS CONGER HAILED STILL CHAMP: BEST MILER OF BEATS STASIAK MODERN GROUP

LOS ANGELES, April 4.—With a more figurative than literal application of the adage—use your head—Gus Sonnenberg, successfully defended his world's championship wrestling title here last night against Stanley Stasiak.

There were no "butts" in the decision but plenty were in evidence throughout the session during which the former Dartmouth football star pinned Stasiak to the mat twice.

Using his head for a battering ram Sonnenberg hit the big Polish wrestler in the midriff after 48 minutes of tugging and scored his first fall.

Stasiak was in a groggy condition even after the rest period and Sonnenberg again began using his bullet-like head, on the second occasion knocking his opponent completely out.

Eleven thousand fans paid around \$26,000 to see the affair.

BY FRANK GETTY

(United Press Sports Editor)

NEW YORK, April 4.—Track and field fans are looking forward to the forthcoming season with the pleasurable anticipation of witnessing at least one more smashing contest for the national championship at the distance of a mile.

With Ray Conner, curly-haired Iowa flyer, in the greatest condition of his career, and with plenty of competition in sight from such fleet and sturdy milers as Edwin Wide, Leo Lermond, Elton Purje and possibly the great Paavo Nurmi himself, to say nothing of a group of newcomers, the mile run at Denver next summer should be a classic.

For several years there has been little real competition for the mile championship. Conner, greatest of modern "money runners" has held it two years. Before that Lloyd Hahn splashed to victory through the mud at Philadelphia in the extraordinary time of 4:16. If the track had been anything but a quagmire that day, the Nebraskan would have set a new world's record, all the experts who watched him declared.

Ray Ruled Seven Years
In 1924 and 1925 Ray Barker of Chicago won the title in the national championships, and before Barker, little Jole Ray enjoyed a seven-year reign. Norman Taber, Abel Kiviat and I. A. Myer are the others who have held the mile championship since the distance first was completed in better than 4:20.

The present world's record holder for the mile is Paavo Nurmi, who is credited with 4:10.2-5 at a meet in Sweden, August 23, 1923. Elton Purje, Paavo's young fellow countryman, is the only other runner known to have bettered 4:12, the latter mark being the American record held jointly by Nurmi and Jole Ray.

Other great milers of the present

ent are Harry Larva of Finland, Olympic 1500 metre champion; Jules La Douneque of France; F. W. Wichmann of Germany; Cyril Ellis, Great Britain, and Paul Martin of Switzerland.

Is Conner Best?
It is an open question if Conner is the best of the lot. He has beaten Nurmi, Wide, Dr. Otto Peltzer, Lloyd Hahn and Elton Purje, a feat no other living runner has accomplished.

The Iowan is a "money runner," who gives his best in a pinch, when the competition is stiffest. He recently defeated Wide, Purje and Lermond in 4:13.2-5 and then was beaten by the Bostonian in 4:30. This does not seem to make sense, but it demonstrates Conner's type.

When the milers toe the mark at Denver, Conner will carry the money of most of us, and probably will justify the choice. At Amsterdam, Ray was not at his best. He was the only American to qualify in the 1500 metre run, however, winning the fifth heat in the comparatively slow time of 4:02.3-5.

1500 Metres Short
Fifteen hundred metres is a bit short for Conner, who gives his best effort in the last furlong when his opponents are tiring. Ray's stretch drive is the greatest of modern times.

There have been complaints from time to time concerning Conner's elbows in the final rush for the tape. Lloyd Hahn, defeated at Chicago by Conner, claimed to have been elbowed off the track and gave up the race, walking to the finish line to protest. Dr. Peltzer, the German star, also disclosed a few bruises after his defeat by Conner.

The fact remains that this fighting Iowan gets up there to the tape, giving and asking no quarter. The judges have never seen fit to censure him. The men he beats sometimes squawk, but Conner goes on winning.

must live or work in that section. Garden Grove's district was considerably enlarged. The Chippewas were authorized to draw players, if they saw fit from Cypress, Westminster, Midway City and Bolinas as well as Garden Grove.

SCHEDULE ADOPTED FOR COUNTY LEAGUE

(Continued from Page 10)

FIRST ROUND
May 10—Garden Grove at Santa Ana, Orange at Olive, Huntington Beach at Anaheim.
May 17—Anaheim at Santa Ana, Olive at Huntington Beach, Orange at Garden Grove.
May 24—Santa Ana at Huntington Beach, Anaheim at Orange, Garden Grove at Olive.
May 31—Olive at Santa Ana, Garden Grove at Anaheim, Huntington Beach at Orange.

SECOND ROUND
June 14—Santa Ana at Garden Grove, Olive at Orange, Anaheim at Huntington Beach.
June 21—Santa Ana at Anaheim, Huntington Beach at Olive, Garden Grove at Orange.
June 28—Huntington Beach at Santa Ana, Orange at Anaheim, Olive at Garden Grove.
July 5—Santa Ana at Olive, Anaheim at Garden Grove, Orange at Huntington Beach.
July 12—Santa Ana at Orange, Garden Grove at Huntington Beach, Olive at Anaheim.

THIRD ROUND

CHICAGO, CITY OF GUNS, TOO TOUGH FOR BOY FROM NEVADA

CHICAGO, April 4.—Chicago, the city of machine guns, automatic pistols and kollege kut klothes, has met and vanquished Nevada, habitat of Winchester rifles, six shooters and chaps.

Here are the details:
Last Sunday the Winnemucca, Nev., basketball team arrived to compete in the national high school tournament. Both players and manager, Art Lyon, had been somewhat apprehensive about entering the city where machine-guns mowed their victims down by sevens so they arranged through governors, congressmen and mayors for a motorcycle police squad to convey them safely to the University of Chicago.

They were arrayed in five gal-

CHICAGO, CITY OF GUNS, TOO TOUGH FOR BOY FROM NEVADA

lon hats, wooly chaps, red shirts and brightly stitched boots that boasted spurs long and sharp.

Monday night the Winnemucca basketball team were defeated by the Wheeler, Miss., team thereby eliminating slight interruption in sight-seeing trips.

Then Bob Gingery, one of the Winnemucca athletes, sauntered from his hotel to gaze at the tall buildings. He was decked out in his Western regalia, adding as a realistic touch, a six shooter which dangled on his right hip in a silver mounted holster.

He hadn't gone more than two or three blocks when he became lost in the roaring canyons of the

Loop, although canyons are his stamping ground.

He naively accosted a policeman who took one look at the butt of the six-shooter peeping out and called the wagon.

As Judge Freeman Fairbank was pondering over Gingery's case two telegrams arrived. They were from the governor of Nevada and H. M. Adams, president of the Western Pacific railroad.

The Judge wouldn't say what the wires contained but he discharged Gingery with the admonition to watch his canyons hereafter and not try to intimidate the gangsters.

Our Fourth Annual

Trade-in Sale

Tires at lowest prices ever

**Crude rubber prices are up 40%
Tire prices still at low level—
Now is the time to equip for the year**

We are making it possible for hundreds of car owners to take immediate advantage of this unusual opportunity.

During our Trade-in Sale we will make you special allowances on your old tires, no matter what make or how far they have gone. You can get started now on Generals at the lowest figure ever known.

Never before has Top-quality meant so much

With the price of crude rubber going steadily up, you will probably see a return engagement of the reclaimed rubber farce. General's policy of never tampering with quality, regardless of rubber prices, has won the confidence of car owners throughout the country. By equipping with Generals now, you have the positive assur-

ance of lasting quality that will take you through season after season of uninterrupted mileage.

A Trade-in Offer that cannot be matched anywhere

Once or twice a year we can afford to make a special Trade-in Offer. This year we are making it more than special. We want the greatest number of car owners possible to learn first hand the advantages of General's Top-Quality. During this sale we are going the full limit in allowance and extra service to make hundreds of new friends for the General Tire.

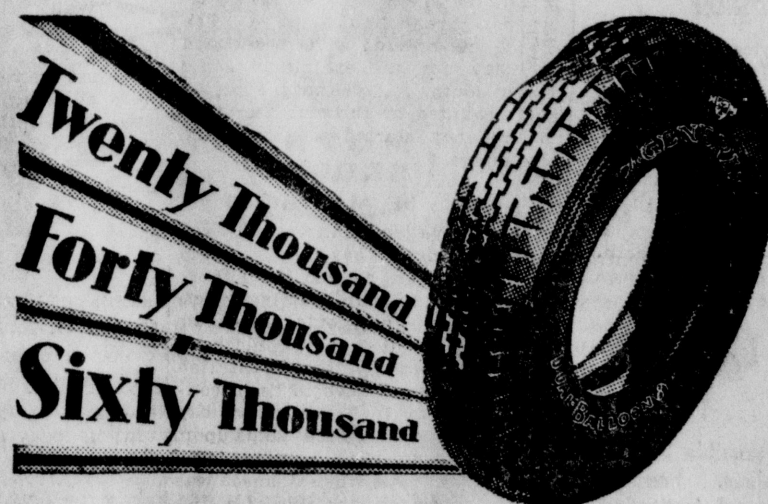

Join the big swing to General

Trade in your old tires now and enjoy the quality that will carry you safely through the next high-priced tire period. Get the benefit now of the big initial saving plus the unequalled satisfaction of trouble-free, uninterrupted mileage year in and year out.

Special Bargains in Used Tires

The used tires go on sale as fast as we take them in. Many are only slightly worn and many are brand-new tires of standard makes. All sizes, all makes, all kinds go on sale. Select yours early.

COME EARLY—BRING YOUR CAR

Greater mileage at regular balloon low-pressure. It completely reverses the tendency of today toward high-pressure or moderate-pressure in tires. It introduces a new permanency of non-skid... far beyond the point where you expect to run on smooth rubber. It does away with the necessity of running on tires that wear prematurely "bald."

In puncture freedom, too, it is far ahead. Even the remote chance of a puncture is reduced to the vanishing point. Our Trade-in Sale includes the new Dual-Balloon 8 and the regular super-lines of 4-ply, 6-ply and 8-ply Generals. Trade in now for General's Top-Quality that means season after season of trouble-free driving and the economy of the longest, safest and most comfortable mileage you have ever known.

75 SIGN FOR PHONE SYSTEM OF BEACH CITY

WESTMINSTER, April 4.—More than 75 names have been secured by representatives of the Associated Telephone and Telegraph company, of Long Beach, in their campaign to establish an exchange here, it was reported at the chamber of commerce session Tuesday night.

One hundred and fifty subscribers must be secured before the exchange is assured, it was stated.

The district includes Barber City, New Westminster, Westminster, Midway City, east to the aviation field south to Smeltzer road and north to the Garden Grove road. The new phones will have the dial system and the rates will be reduced according to reports.

The district is served by the Huntington Beach Telephone company at present. This company has been acquired by the Associated company.

Plans for having a rural route out of the Westminster post office were discussed and approved and the secretary, Dr. Richard Foster, given authority to communicate with the postmaster general. The route must be at least 24 miles in length and three routes are at present serving the proposed district: Santa Ana route No. 2, Huntington Beach route No. 2 and

Garden Grove No. 1. Two additional members were added to the committee on the proposed street light district. Charles Sigler and Francis Penhall. George Abbott is chairman and Harry Mansperger and Bert Isenberger are the other members. A special meeting of the committee was set for next Monday evening to be held with Mr. Abbott to map out the boundary lines of the district. The chamber approved the venture as planned by the committee.

Donations totaling \$40 were made at the meeting by a number of the members for the handball equipment, which will cost \$75 or \$80. The ball committee consisting of Francis Penhall, Ralph Baxter, and Paul Dauphine, the latter of whom is taking the place of Asa Snow, resigned, reported that considerable work has already been

done on the park, which is located in the plaza grounds near the library. Lights and other necessary equipment for night playing will be installed.

A new vice-president was elected at the meeting, Orval Day taking the place of Ed. L. Hensley of Midway City, who gave up the office but remains a member of the local C. of C.

BUILDING CAMPAIGN SEEN BY INSPECTOR

ANAHEIM, April 4.—Increasing activity this spring in residential building is the prediction of R. Nyboe, city building inspector. The greater number of homes to be built this spring will continue to be of stucco, the building inspector declares, and building will be most active in the sub-divisions.

Meat Salesman Lions' Speaker

GARDEN GROVE, April 4.—W. D. Johnson, of Los Angeles, sales manager of the Cudahy Packing company spoke on "The Meat Industry" at the Lions club luncheon Wednesday.

Sigurd Magnusson entertained with several piano numbers. W. A. Wheeler was in charge of the program.

OLIVE

OLIVE, April 4.—Mr. and Mrs. Walther Liefers, Walther Liefers' parents and Mrs. Liefers' mother, Mrs. Henry Heinemann, were recent Long Beach visitors.

Mr. and Mrs. Thierfelder, of Glendale, and Mr. and Mrs. Walther Liefers and sons, Oscar and Clinton, were Easter dinner guests of the George Boehner family.

Mr. and Mrs. Fred Guenther entertained their sons and daughters and their families at an Easter dinner Sunday evening. In the afternoon the children enjoyed an Easter egg hunt, while later in the evening the older members of the family played progressive 500.

Mrs. August Heinemann and Ed Guenther received first prize. Those present were Mr. and Mrs. August Heinemann, Mr. and Mrs. Ed. Meierhoff, Mr. and Mrs. Ed. Guenther, Mr. and Mrs. Clifford Hammond, Mr. and Mrs. Rude Hermann, Mr. and Mrs. Otto Guenther and Fred Guenther Jr.

Mr. and Mrs. Bob Nieweg and son, of Maywood, and Mr. and Mrs. Howard Nelson, of Redlands, were guests in the Clause Otte home Sunday.

Mr. and Mrs. William Klassen and children spent the week end with her sister, Mrs. Carl Gollin, and their daughter, Irma, who is staying in the Gollin home while attending the Lutheran school. The Klassen returned to their home in Bakersfield Monday morning.

Adolph Schmid and his son, Norman, were Newport fishermen Monday.

The Rev. E. H. Kreidt left for spend a few days with his wife.

Adolph Schmid attended the

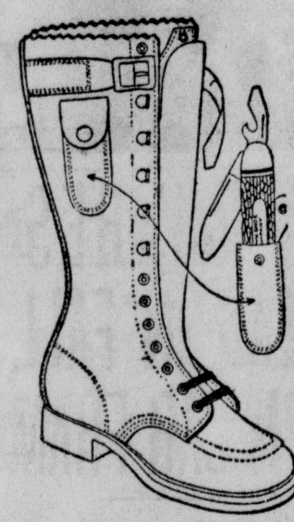

Lutheran pastors' and teachers' convention in San Bernardino Tuesday.

Mrs. Claus Otte entertained the Sew and Sew club Thursday afternoon.

Mrs. Walter Otte and Mrs. Herbert Meierhoff entertained the Sew and Sew club Monday afternoon in observance of their mothers' birthday. Mrs. C. Otte and Mrs. Bernard Schroeder. The afternoon was spent at progressive bunco. Mrs. Arthur Brelje receiving first prize and Mrs. Fred Guenther the consolation. Refreshments were served by the hostesses. Beside the members of the club, Mesdames Emilia Brelje, Arthur Brelje, H. T. Moenich, Fren Guenther, Herman Meierhoff, Henry Heinemann, Herman Wisnack, Ed Meierhoff, George Schroeder, of Orange, Howard Nelson, of Redlands, and Henry Freese, of Anaheim, were present.

Miss Alberta Wisnack, daughter of Mr. and Mrs. Albert Wisnack, was given an Easter party in honor of her first Easter. The afternoon was spent by the young children hunting Easter eggs, while the older children were entertained with a treasure hunt. After the scramble for eggs and treasure was over, pictures were taken and refreshments served. Those present were Mr. and Mrs. W. C. Hutton and sons George and Lloyd; Mr. and Mrs. Harry Harris, of Los Angeles, Donald and Orville Timme, Mr. and Mrs. Walter Timme, Harold and Robert Schick, Mr. and Mrs. Harry Schick, Mr. and Mrs. Herman Wisnack Jr. and son, Robert; Carl Wisnack, Mr. and Mrs. Herman Wisnack sr., Mrs. A. S. Hutton, Miss Grace Hutton, David and Alberta Wisnack.

WE HEAR much about the advisability of diversifying investments. This is commonly intended to urge the investor to divide his capital among a large number of widely differing types of businesses.

The Southern California Edison Company serves every type of industry that exists in Southern and Central California and is not dependent upon the prosperity of any one type. It therefore offers a self-contained diversification to the investor which it would be difficult to obtain otherwise.

Buy a block of Edison 5 1/2% Preferred Stock and know that your investment is safe-guarded by true diversification.

500 Present For Fourth Methodist Church Program

'PROPHETS OF YESTERDAY AND TODAY' TOPIC

The fourth of the eight weeks' series of church training night programs being conducted at the First Methodist church in Santa Ana was held last night, with 500 persons present.

Committees are engaged in making arrangements to continue the interest in the Wednesday night services throughout the concluding four weeks of the series.

In the absence of the Rev. James H. Hughes, minister of education, who has been presiding during the social and dinner hour, S. M. Davis introduced the features of the evening. Musical numbers were given by the women's quartet of the local junior college. Two selections, including an Indian love lyric by Cadman and the ever popular "Annie Laurie" were sung.

During the assembly hour, Prof. Carl F. Knopf of the University of Southern California continued his discussion of the prophet Jeremiah as the fourth of his addresses on the subject "The Prophets of Yesterday and the Problems of Today."

"Isn't it funny," the professor said, "that with all our talk about the outlaws of war and our Kellogg peace pacts, it took us 2600 years to do anything. Twenty-six hundred years ago a Hebrew prophet, a man of God, said 'You start out on a militaristic policy and I'll call it by its right name and that name is blood.'"

"Jeremiah then was entering upon the field of international relationships and he tried to interpret those relationships in terms of God. So it is that we see the history of yesterday is the stage setting for today."

Drawing a vivid picture of historical action, Knopf gave a dramatic description of the Egyptian Pharaoh Necho's dream of empire as the cause for the change of Egypt. The downfall of Assyria in the year 606, was, he said, the downfall of the greatest example of military despotism that the world has ever known.

Concluding his remarks by repeating his stress on the beauty of Hebrew poetry, the professor explained by reading interpretations from the Bible that it is the rhythm within the lines that makes beautiful poetry.

"We find in their Bible histories and poetic statement of occurrences that the prophets of yesterday were asking the same question that we ask today, 'Why these maladjustments in life?' The taunt song of Jeremiah to be found in chapter 46 of the book of Jeremiah is a beautiful illustration of dramatic analysis."

LIKES ISLANDS

BREA, April 4.—Returning from the Hawaiian Islands, where he was called on an Oriental conference, Dr. W. Remfrey Hunt, pastor of the Brea Christian church, reports the island population as predominantly Christian. Education is advancing rapidly under the American administration, he says. He calls the islands a paradise of natural beauty and historic charm and predicts active missionary work there.

VICTIM OF OFFICERS AND FAMILY

Mrs. Joseph DeKing, shot and killed by state prohibition agents when they raided her home at Aurora, Ill., is shown here with her husband and son, Gerald DeKing, nine years old. When DeKing resisted, raiders say, he was knocked unconscious and as Mrs. DeKing bent over her husband one of the officers shot her in the stomach, killing her almost instantly. The boy then grabbed a pistol and shot Deputy Roy Smith, the bullet entering his leg. Officers claims Mrs. DeKing attempted to reach for a gun as she bent over her husband.

S. A. STUDENTS PAY VISITS TO NOTED PEOPLE

And the more famous they are the easier it is to reach them, according to students of the journalism class of the Santa Ana Junior college, who have just completed an assignment.

Contrary to the popular opinion that great people have little consideration or time for newspaper folk, these students had little difficulty in securing interviews with several of the best known men and women in the country.

Ray Lindman, who is to play the title role in Shakespeare's tragedy, "Macbeth," to be presented soon at the junior college, and Miss Frances Brown, who is a grand niece of the late Charlotte Cushman, one of America's best known actresses, secured an interview with Frederick Warde, Shakespearean actor.

The actor very graciously granted the student reporters an hour of his time in which he told them a great deal of the American stage of a quarter of a century or more ago.

Several of the students had appointments with John Steven Mc-

Groarty, who wrote the Mission play. He told his interviewers a number of interesting facts connected with early California history and expressed himself interested in the effort the Santa Ana college is making to carry out the traditions of the Dons. Mr. McGroarty is to be a speaker at the annual college fiesta May 17.

Ole Hanson, former mayor of Seattle, was interviewed. Mr. Hanson, the founder of San Clemente, has long been regarded as one of the most successful business men on the Pacific coast.

"Scoop" Gleason, of San Francisco, sports writer of a bay city daily, granted interviews to several students during a brief stay at St. Ann's Inn.

BOY INJURES HEAD IN FALL ON CAR FRAME

While playing on a vacant lot on Cypress street near St. Andrews place shortly after 1 o'clock yesterday afternoon, Lawrence Craig, 10-year-old son of Mr. and Mrs. B. A. Craig, of 1926 South Main street, fell and was severely injured. His forehead struck the

side of an old auto frame with which he had been playing.

During the absence of his mother, who was away from home for the day, the injured boy was cared for by neighbors and his little pal, Bill Newland, with whom he had been playing shortly before the accident.

The injured boy's father, Ben Craig, is a state traffic officer.

PENNEY STORE HEADS PRESENT AT CONVENTION

J. C. Lansdowne, manager of the Santa Ana J. C. Penney company store, and F. A. Jones, who for the past two years has been assistant manager but recently appointed manager of the new store soon to open in Oceanside, left today for Los Angeles to attend the annual spring convention of the organization, which will open tomorrow in the Hotel Ambassador.

The first two days will be devoted to business sessions in the morning and general conferences between store managers and department managers from the home office in the afternoon.

On Tuesday night there will be a banquet in the hotel with a short program of inspirational nature followed by the initiation of new managers into the J. C. Penney company ranks.

Following the business sessions, four days will be devoted to spring buying. Special features have been developed in the presentation of ready-to-wear clothing, millinery and other style items of the general J. C. Penney company lines.

Recent developments in the J. C. Penney company include the acquisition of 117 stores throughout the midwest and west and the opening of 65 new stores in the general expansion program to include 500 new locations during the present calendar year.

The machinery of the local plant will be removed to Santa Ana. The Orange creamery was a unit of the Orange Ice and Cold Storage company, which will continue operations on the same site.

The Raltt company has leased the Benjamin building next to the Orange theater and will install a combination dairy lunch with a soda fountain and confectionery. It is expected that the store will be opened by May 1.

73rd Birthday Is Observed In Beach Home Wednesday

SEAL BEACH, April 4.—A surprise birthday party was held in the home of Mr. and Mrs. E. J. Hughes in honor of Mr. Hughes' mother, Mrs. Ida Hughes, Wednesday evening.

Three sons and their families extended to Mrs. Hughes their congratulations and love on her seventy-third birthday and shared with her the big birthday cake. Plates were laid for Mr. and Mrs. E. V. Hughes and family, Mr. and Mrs. C. F. Hughes and family, Mr. and Mrs. E. J. Hughes and son, Mrs. John O'Hern, of Chicago, a cousin, and Miss Katherine Mulvihill.

S. A. DAIRY BUYS ORANGE COMPANY

ORANGE, April 4.—The Orange Creamery company has been sold to Raltt's Sanitary Dairy company, Santa Ana, it was revealed yesterday. The deal became effective April 1, when the Santa Ana concern took over the routes.

The machinery of the local plant will be removed to Santa Ana. The Orange creamery was a unit of the Orange Ice and Cold Storage company, which will continue operations on the same site.

The Raltt company has leased the Benjamin building next to the Orange theater and will install a combination dairy lunch with a soda fountain and confectionery. It is expected that the store will be opened by May 1.

Y. M. C. A. WILL STAGE CIRCUS COMING WEEK

The fifth annual Y. M. C. A. gymnasium circus will hold the stage at the association building Thursday and Friday evenings of next week, when Physical Director Ruskick will present his classes in a performance of variety and originality.

Departing from the usual plan of circus, Ruskick has this year prepared a series of acts and episodes which will combine clever acrobatic and gymnastic work with entertainment features of the most attractive sort.

In addition to the regular exhibition features, a pageant has been planned, which will offer a colorful presentation of acrobatic skill woven into a thread of historic interest, beautifully costumed, and pleasantly illuminated.

Music by an orchestra directed by L. R. McMullen, and accompaniments by Mrs. Moxley, will furnish a background for the exhibition features.

The acts will be presented on a stage installed for the occasion, and seating arrangements have been planned for the comfort and convenience of the audience.

Doors will open at 7:30 o'clock

ORANGE PLANT ENDANGERED BY FIRE IN WALLS

ORANGE, April 4. — The new \$175,000 addition to the Santiago Orange Growers' association plant was endangered by fire yesterday afternoon, when a blow torch being used in the basement set fire to tar in the walls of the pre-cooling plant.

Several of the firemen were overcome by the smoke as they entered the room but recovered as soon as they were taken into fresh air.

Holes were cut through the roof and water forced through the openings. Both fire engines were brought into use. The damage was confined to one room, which was badly charred. Fire adjusters are estimating the damage done, today.

The fire is the second which has occurred since the work on the new addition was started, an overturned tar kettle causing a small blaze about a month ago.

and the performance will begin each night at eight, a concert by the orchestra occupying the interval while the audience gathers.

Ruskick emphasizes the fact that the show may be seen on only the two nights, Thursday and Friday, of next week.

VISIT OUR ALL-YEAR EDUCATIONAL TOY DEPARTMENT

The large subway store underneath our new store here was remodeled, a new stairway built, and completely stocked with educational toys of every good kind. Included are KINDERGARTEN SUPPLIES, the best and fullest line. This department is of all-year interest . . . a fitting adjunct to this modern store.

Silver Wedding Occasion Of Party Planned By Daughters

Mr. and Mrs. Paul Comito of 716 Spurgeon street who celebrated their silver wedding anniversary yesterday, were honored last night at an informal supper planned for them by their two charming daughters, the Misses Louise and Florence Comito.

Cards and games marked the early hours of the evening and at midnight the delicious supper was served at flower decked tables.

Following the supper, guests enjoyed inspecting the many lovely gifts received by Mr. and Mrs. Comito. Among the gifts displayed was a lovely wrist watch that had been presented Mrs. Comito by her husband and a signet ring that she had given him.

Mr. and Mrs. Comito were married 25 years ago in North Adams, Mass., where they made their home until 1925 when they moved to Santa Ana where they have made many warm friends.

Four of their five children were present at last night's party and they included the Misses Louise and Florence Comito, Michael Comito, and William Comito. Another son, Anthony Comito, and his wife are visiting in North Adams at present.

Psychology Club Meets Tuesday

Mrs. Jean Morris Ellis of the Los Angeles Y. W. C. A., who has recently written a psychological book, "Sub-man or Super-man," addressed the Santa Ana Psychology club Tuesday night when it met at the home of Miss Grace Putterbaugh, 612 North Olive street.

Mrs. Charles Tingley presided over the meeting and led the discussion that followed the talk.

The next meeting of the club will take place April 16 at the home of Mrs. W. W. Harding, 526 South Van Ness avenue.

Mother and Sister Plan Pretty Surprise Party

When Miss Marjorie Pollock returned to her home at 1113 West Fifth street one evening this week following a dinner engagement with Miss Bernice McLaren, she was surprised to find a group of her friends gathered there for a party. Incentive for the affair, that had been planned by Mrs. Harold Pollock and her daughter, Miss Florine Pollock, was the approaching wedding of Miss Pollock and Robert Davidson of Orange.

Bridge was enjoyed during the evening and when scores were finally added it was found that Miss Bonnell Miller was high and Miss Lavinia Compton was low. After they had been presented with attractive prizes, a large basket was brought into the room, heaped high with gifts of linen, glass, and silver for the honoree.

After guests had inspected the pretty gifts, they were invited to view the many lovely articles Miss Pollock has ready for her new home.

Low bowls of pink sweet peas centered each of the card tables for the refreshment course that was served by Mrs. Pollock and Miss Florine Pollock.

Guests included Miss Mavis Campbell, Miss Lavinia Compton, Miss Bonnell Miller, Miss Frances Harper, Miss Janet Eljah, Miss Ethel Arrowsmith, Miss Louise Forbes, Miss Joana Day and Miss Helen Baker of Orange; Miss Bernice McLaren, Miss Eileen King, Miss Rosa Frank and the honoree, Miss Marjorie Pollock.

Prominent "Sub-debs" Enjoy Week at Beach

Acquiring a wonderful foundation for their coveted summer coats of tan, fourteen members of a club made up of prominent "sub-debs" of the city, are enjoying vacation week at Balboa, where they are occupying the big cottage on the Bay Front where Buster Keaton lives when he films any of his pictures on the bay.

In the group are the Misses Dorothy Diehl, Marguerite Lentz, Julia Thornydyke, Elpha Thornydyke, Loreta Spangler, Eleanor Rairdon, Betty Smith, Barbara Horton, Marcia Huber, Frances Vieira, Mildred Daley, Charlene Lowell and Marjorie Watkins. The girls left Friday of last week, after school closed for the Easter recess, and will remain until next Saturday. Mothers of various members of the party are taking turns at chaperoning the lively young people, and joining them in their dances, swims and beach sports.

Benefit Card Party Held at K. P. Hall

Brilliant poppies and stately irises were used as decorations Tuesday afternoon when members of the Calumet auxiliary, United Spanish War Veterans, held a card party as a benefit for the drill team. Proceeds will be used by the team to assist with expenses when the team goes to Sacramento to attend the state convention.

Both bridge and five hundred were played during the afternoon and attractive gifts were awarded the holders of high scores.

Mrs. Elizabeth Erickson was in charge of the hostess committee and she was assisted by Mrs. Charles Waffle, Mrs. Estelle Dresser, Mrs. Ruth Anderson, and Mrs. Oscar Kirtz.

Coming Events

TONIGHT
Famous Composers' club; Schubert program at Santa Ana conservatory of Music; 8 o'clock.
White Shrine; K. P. hall; 7:30 p. m. Installation of officers; 8:30 o'clock.

Northwest section of the Ladies Aid of the First Presbyterian church; with Mrs. George Dobson, 1069 West Fifth street; 2 p. m.

HOW GIRLS REACH STARDOM In The Movies

A Perfect Complexion First Requisite

If you want wonderful success in life, whether it be in the movies, the business or social world—you must have an absolutely flawless, enchantingly smooth, superb skin. No matter how ugly, dry, coarse, wrinkled your skin is today—after using Howard's Buttermilk Cream for one week you'll be greeted everywhere by your friends with, "Why, Mary, you're positively beautiful! Do you suppose it'd help me—but it must be dreadfully expensive to accomplish such marvelous results. Do tell me what it is."

You see Howard's Buttermilk Cream contains true Buttermilk (recognized for centuries as one of the world's greatest beautifiers) plus other skin-nourishing, youth-renewing ingredients. It thoroughly cleanses pores; no more blemishes or blackheads. It

Merry Bridge Games Follow Luncheon At St. Ann's

Sweetpeas in glowing tints of pink were used in attractive fashion by Mrs. Frank Meade of St. Ann's Inn when she entertained a group of friends yesterday afternoon at luncheon and bridge. The same lovely tones expressed in the flowers were found in the pretty nut cups, place cards, and bridge tallies.

Bridge tables had been arranged in the lobby where the afternoon passed quickly in the merry games. Mrs. M. D. Borgmeyer scored high and Mrs. Harry T. Duckett was low, each being presented with an appropriate gift.

Guests of Mrs. Meade included Mrs. Harry Duckett, Mrs. Roy Hall, Mrs. M. D. Borgmeyer, Mrs. W. H. Haddon, Mrs. J. B. Tucker, Mrs. V. A. Rossiter, Mrs. Donald Smiley, Mrs. William Cummings, Mrs. Beaumont, Mrs. J. P. Baumgartner, Mrs. Grace Zaiser, and Mrs. Lewis Moulton.

CHURCH SOCIETIES

Missionary

The Women's Missionary society of the United Presbyterian church met in the church parlors on Wednesday. Preceding the Missionary meeting a luncheon was served by Mrs. Anna Scott, Mrs. O. S. Johnston, Mrs. J. A. Smiley, Mrs. Mattie Miller and Miss Mae Thompson.

The King's Daughters, in charge of Mrs. Will Lindsey, were guests of the senior society. Miss Mary Elder, secretary of the Y. W. C. A. also was a guest and gave a talk on "What the Y. W. C. A. Stands For."

King's Daughters who were present included Mrs. Will Lindsey, Wilma Hatch, Margaret Finley, Helen Loken, Jean Hay Audrey Duckett, Marjorie Lindsey, Evelyn Walker, Marie Bradford, Jane McBurney, June Buffham, Rebecca McPeak, Ethel Duckett, Maurine Harris, Virginia McAuley, Anabel McFadden, Dorothy Dunbar.

A special table was arranged for those having birthdays. In April, and they were presented with a beautiful birthday cake decorated with lighted candles. In the afternoon the president, Mrs. C. E. Hogue, called the society to order. The year's report of the treasurer was given by Mrs. J. T. Raitt who said that the amount given by the society for the year totaled \$1698. Reports of the Women's Presbyterian recently held in Los Angeles were given by Mrs. Stewart Kennedy, Mrs. Wm. Breckinridge, Mrs. Will Lindsey, Mrs. William Smart, Mrs. Emma Noble, Mrs. S. H. Finley.

Mrs. C. E. Hogue, president of the society, was appointed delegate to the Federated Missionary society to be held in the United Presbyterian church April 25.

"Gleanings from Missionary Letters" was the subject of a talk, by Mrs. Will McBurney.

Mrs. A. J. McFadden spoke on "The Dominance of the City."

Ladies' Aid

The Trinity Lutheran Ladies' Aid met at the lovely country home of Mrs. A. J. Hauptman yesterday afternoon.

After the business session the members spent the afternoon in visiting and chatting.

At the close of the afternoon the hostess served delicious refreshments at a large table decorated with a profusion of sweet peas in pastel tints.

Party

A party that included a program, games and refreshments was given by the Woman's union of the Congregational church in the bungalow to the young mothers and their children of Mrs. Hart's Americanization classes. About forty responded to the invitation of the union.

Mrs. E. M. Nealley voiced a welcome. "America" was sung and the Lord's prayer given.

Mrs. Marlowe gave a talk on Art Appreciation, meaning the great contributions in art and music made by different races. Mrs. Livesey sang "The Dawn" and "The Serenade," and Mrs. Johnston sang "Who Knows" and "La Paloma."

An address in Spanish was given by Mrs. Thacker, missionary, who is home from Cuba. Games were played.

The children were cared for in a Sunday school room.

Refreshments were served by Mrs. Bloodgood, Mrs. Bishop and others.

Birth Date Remembered By Glee Club of Auxiliary

The birthday anniversary of Miss Marjorie Rawlings was the occasion for a jolly party held last night for her at the C. E. Utt home on Lemon Heights by members of the Glee club of the American Legion auxiliary.

The delightful occasion had been arranged by Miss Rawlings' sister, Mrs. Jessie Johnson, who was assisted in plans by her mother, Mrs. C. E. Utt, who offered her home for the affair.

When bridge scores were added, following several merry games, Miss Clarice Cummings and Elmer Schaniel were high and Mr. and Mrs. Leland Finley were low. Pretty prizes included a set of crystal vases for Miss Cummings, a Fostoria pickle dish for Mrs. Finley and a book apiece for Mr. Schaniel and Mr. Finley.

Miss Rawlings was presented with an attractive vanity as a gift from the Glee club.

Those invited to share in the happy event were Mr. and Mrs. Dean Collier, Mr. and Mrs. Morris Cain, Mr. and Mrs. Elmer Schaniel, Mr. and Mrs. Leland Finley, Mr. and Mrs. Joseph Snyder, Mrs. Moxley, Mr. and Mrs. Thomas Willis, Mr. and Mrs. H. R. Brown, Mr. and Mrs. James Utt, Dr. and Mrs. Frank Halber, Mr. and Mrs. Jessie Johnson, Mrs. Lucille White, Miss Clarice Cummings, Miss Leila Rittner, Bob Perrin, Hugh Rannels, Frank Grouard, and Walter Wawlings.

Country Club Members Plan Social Events For Coming Month

With Lent ending on Easter Sunday, Santa Ana Country club members have once more turned their attention to social activities and their calendar for April includes a number of interesting affairs.

The first is the monthly bridge of April 12, 8:15 o'clock, when Dr. and Mrs. J. I. Clark will act as hosts. Special plans have been made for the party and it is expected that a larger number of members than usual will avail themselves of the opportunity to be present on that occasion. Attractive prizes have been procured and punch and wafers will be served during the evening.

On Monday night, April 15, at 6:30 o'clock, the annual tag meeting and dinner will be held. Members have been asked to make a special effort to attend this meeting.

Mrs. Robert Jeffrey and Mrs. J. Riley Huber will preside over the afternoon bridge party on April 19. Preceding the bridge games that will start at 2:15 o'clock, luncheon will be served in the solarium.

The monthly dance will take place April 26 and it bids fair to be unusually popular as Alton Redd's colored orchestra has been engaged for the occasion. Mr. and Mrs. E. B. Van Meter will act as hosts at the dance.

ANNOUNCEMENTS

The stage setting for the next production of the Santa Ana community players, is laid in a large room of an art connoisseur. The scenery and property committees are to meet at the Yost Spurgeon theater building tonight to make pictures for the art collection which is to hang on the walls of the room. It is planned to set the stage tonight as for the play and add the color touches necessary. All committee members are urged to be present, according to Mrs. Marshall Harnois.

The Northwest section of the Ladies Aid of the First Presbyterian church will meet at the home of Mrs. George Dobson of 1069 West Fifth street tomorrow afternoon at 2 o'clock. All women who are members of the church and who live in the northwest section of the city have been invited to attend the meeting.

La Crescenta Church Chosen For Pretty Wedding Service

The quaint little Episcopal church of St. Luke, nestled in the mountains at La Crescenta was chosen by Miss Bernice Dunn of Glendale and Paul Brown of that city, son of Coroner C. D. Brown and Mrs. Brown of Tuslin, for their wedding that took place last night.

The beautiful white flowers of the Easter season were used in profusion throughout the church and graceful Easter lilies nodded from the altar before which the service was read by the Rev. W. L. H. Benton, rector of the church, who was formerly of this city. The Rev. Mr. Benton is a dear friend of Mr. and Mrs. Brown.

The brown-haired bride who was very beautiful in her simple frock of green georgette worn with accessories to harmonize, carried a lovely bouquet of bride's roses and maidenhair fern.

She was attended by her sister, Mrs. Gordon Middlebrook of Los Angeles, who was groomed in pink chiffon, the warm tones of which were reflected in her bouquet of pink rosebuds. Raymond Hill of Bell served Mr. Brown as best man.

Immediately following the ceremony, which was attended only by immediate relatives of the young people, Mr. and Mrs. Brown left for a honeymoon trip to San Diego. On their return they will be located in Glendale where Mr. Brown is connected with the office of the Southern California Auto club.

The charming bride, who is the daughter of George Dunn of Los Angeles, formerly of Santa Ana, has been connected with the Glendale telephone company for some time and she plans to continue her work there for several months. She was formerly one of the most popular members of Santa Ana's younger set and she was very active in school activities here where she graduated from the local high school.

Her husband also graduated from the Santa Ana high school and for the past three years he has been connected with the Southern California Auto company.

Guests at the wedding included Mr. and Mrs. C. D. Brown, of Tuslin; Mr. and Mrs. Charles J. Leimer of Santa Ana; Mr. and Mrs. Addison Brown of Anaheim; Mr. and Mrs. Raymond Hill of Bell; Mr. and Mrs. Gordon Middlebrook of Los Angeles, and Miss Phyllis Haver and Miss Molly Malone of Hollywood.

Dr. and Mrs. E. M. Mills Leave on Eastern Trip

Dr. and Mrs. E. M. Mills of 2429 Poinsettia street left today for York, Nebraska, where Mrs. Mills has been asked to take part in the dedication of Mills Cottage, a home for babies, that has just been established there.

Mills Cottage, the management of which is under the control of the First Methodist Episcopal church, was named in honor of Mrs. Mills who has taken an active part in national church work for a number of years.

Following the dedicatory services, Dr. and Mrs. Mills are to continue to Cincinnati where Mrs. Mills will attend a semi-annual meeting of the board of trustees of the Woman's Home Missionary societies of the national Methodist Episcopal church.

L. M. Threlkeld Home Meeting Place of Grandma Club

Members of the Grandma club continue their afternoons of "Michigan" and that game was enjoyed yesterday when members gathered at the home of Mrs. L. M. Threlkeld, 303 South Garnsey street, for their semi-monthly meeting.

Preceding the card games, luncheon was served by the hostess at tables that carried out the Easter motif in that they were entirely in white. Flowers used about the home were also white with many lovely Easter lilies adding a delightful note to the scene.

Following the Michigan games, scores were added and it was found that Mrs. Martha Westlake, a guest of the club, had scored high while Mrs. Lula Hall was low. Each one received an attractive gift.

It was announced that the next meeting of the Grandma club will take place April 17 at the home of Mrs. Mina Zimmerman, 605 West First street.

Members who were present included the hostess, Mrs. Threlkeld, Mrs. Kate Elledge, Mrs. A. R. Mitchell, Mrs. E. A. Schick, Mrs. Mina Zimmerman, Mrs. Lula Hall, Mrs. E. D. Rucker, Mrs. J. E. Haloway, Mrs. L. Zimmerman, Mrs. M. Rosewell, and guests were Mrs. Martha Westlake and her daughter, Miss Mira Westlake.

Emma Sansom Chapter Arranges Southern Auction Sale

What member of the United Daughters of the Confederacy hasn't something typically Southern in her home?

If she hasn't she is certainly supposed to, according to officers of Emma Sansom chapter who have arranged a southern auction sale to be held at the home of Mrs. George Wells, 2020 Victoria drive Wednesday afternoon, April 18, at 2 o'clock.

Each member of the chapter has been requested to bring an article for the auction. This article "may be something cooked, knitted, sewed, a picture, a dish, a bit of furniture, or anything distinctive of the old South," stated Mrs. Neal D. Pritchett, secretary of the chapter, in letters written to the members.

Each member is expected to bring a guest and if she plans to bring more than one she is to notify Mrs. Wells.

Adding to the interest of the affair will be the program of American Folklore music that has been planned by Mrs. Ray Stedman. She will be assisted by Miss Louise Montgomery and Neal Pritchett.

EBELL NOTES

Miss Louise Montgomery will be in charge of the Music section meeting of the Ebells society at 10:30 o'clock Monday morning. She will be assisted in arranging the program by Ione Tunison Peck of this city and Mrs. Ray Stedman of Costa Mesa. A pot luck luncheon will be served at noon, according to Mrs. Harry Hayes, section leader.

Further discussion and review of Richard Halliburton's popular book "The Royal Road to Romance," will be featured at the next meeting of the First Travel section. It is hoped that the review will be completed at that time. Mrs. E. B. Smith of Santa Ana and Mrs. H. C. Daves of Los Angeles will act as hostesses.

"Java and Samatra" are the countries to be discussed at the meeting on April 26 of the Third Travel section. Roll call and special musical numbers have not as yet been arranged, but the program features are being prepared by Mrs. C. E. Blacow with Miss Ida Nay assisting.

Mrs. Fred Robinson, Mrs. W. B. Williams and Mrs. A. C. Bowers are arranging the program for the next meeting of the Third Household Economics section. Taking as the subject, "Oriental Rugs," the members are preparing an interesting program for the third Friday of this month.

"Antiques" is to be the subject for the next program of the Second Household Economics section, which will be held April 10 at the clubhouse. A 1 o'clock luncheon will precede the meeting.

You and Your Friends

Mr. and Mrs. D. N. Peters at 1022 North Broadway have returned from a motor trip to El Centro and the Imperial valley. Leaving Saturday, they arrived in San Diego for Easter Sunday services and while there visited at the home of Attorney Fred O'Farrell.

Mrs. F. W. Slabaugh and

daughter, Miss Helen, who left today for Berkeley where they will visit Miss Virginia Slabaugh, plan to attend a dinner party in San Francisco Saturday night given in celebration of the twins.

Why We Prefer to Sell Fine American-made Watches

Our business is built on keeping you satisfied with the merchandise you buy in our store. So when you come to us for a fine watch we prefer to sell you a watch made in America. Here are just a few reasons why our interests are yours too:

We know that American watches are uncannily accurate. We know the men who make them—the Gruesz, Hamilton, Illinois, Elgin, Waltham. We know the painstaking care that results in these marvelous timepieces.

We understand these watches as you do a true friend. If an accident should happen to your watch, we can repair it promptly. Right at our fingertips we have factory-built duplicates for every part of our watches.

NEWS FROM ORANGE COUNTY COMMUNITIES

5000 Expected To See Gliders Saturday, Sunday

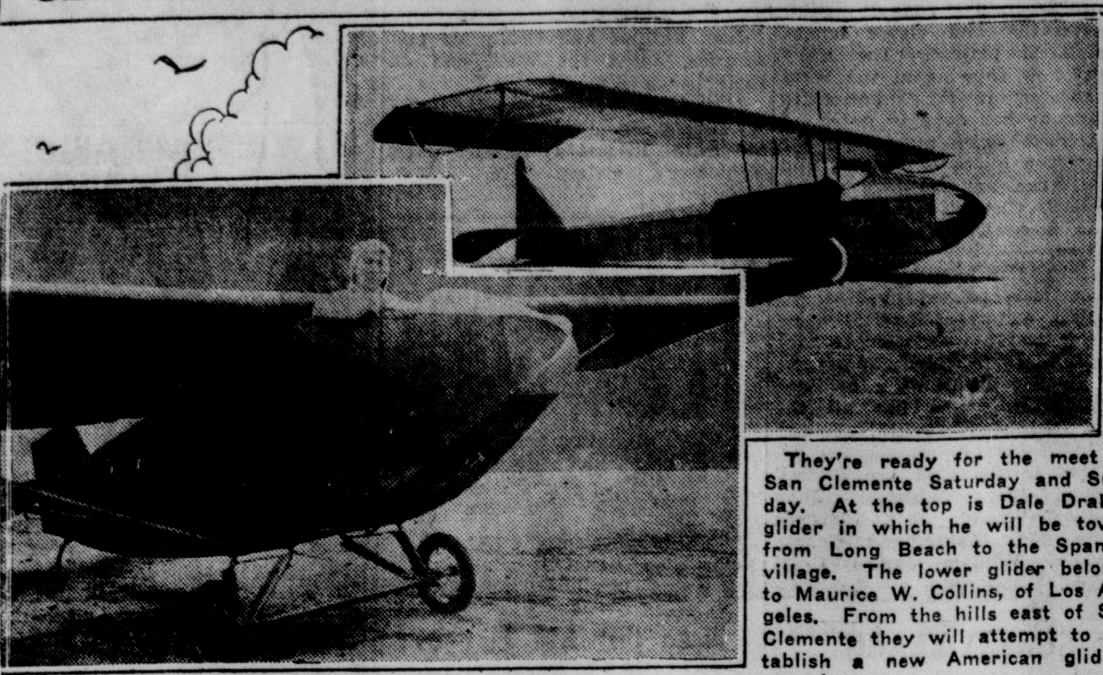

SAN CLEMENTE C. C. PREPARES FOR BIG CROWD

SAN CLEMENTE, April 4.—Plans have been completed by the Spanish Village Chamber of Commerce aviation committee for the two-day glider meet to be staged here Saturday and Sunday. More than 5,000 people are expected to come to San Clemente to see Dale Drake, famous glider expert and holder of the Pacific coast record, attempt to set a new American gliding record.

Virgil Westbrook, a flyer in the reserve corps, Capt. H. H. Hammer, secretary of the chamber of commerce and a man with aviation records in the Arctic and George Scherck, a flyer during the World war, have inspected the hills east of the village from which Drake will glide with his plane in his attempt to set a new U. S. mark. Maurice W. Collins, of Los Angeles is scheduled to compete with Drake for honors.

Drake, who holds the towing record, having flown more than 200 miles behind a plane, will land on the beach at the municipal pier after being towed from Long Beach by an airplane. He will then take his craft to the hills and get to work preparing to smash the mark.

GLIDERS READY FOR SAN CLEMENTE MEET

They're ready for the meet at San Clemente Saturday and Sunday. At the top is Dale Drake's glider in which he will be towed from Long Beach to the Spanish village. The lower glider belongs to Maurice W. Collins, of Los Angeles. From the hills east of San Clemente they will attempt to establish a new American gliding record.

of the Wright brothers which has been a record for 26 years. Dan Mulherron, president of the San Clemente Chamber of Commerce, states that Police Chief Forest J. Eaton has asked the state highway department for assistance in handling traffic during the glider trials.

COSTA MESA LIONS HEAR RADIO TALK

COSTA MESA, April 4.—Members of the Costa Mesa Lions club yesterday heard Edward Meador talk on "Radio."

Among the visitors present were H. B. McBride, of Long Beach and Dr. H. Willis, E. Minor, W. Minor, and C. J. Lewis, of Costa Mesa. Twenty-eight persons were in the Woman's clubhouse. Dr. C. G. Huston presided.

ORANGE CHURCH PLANS \$15,000 SCHOOL BLOCK

ORANGE, April 4.—Plans for a \$15,000 Sunday school for the First Christian church will be discussed at a meeting of members and friends of the church at 7:30 o'clock tomorrow night.

The project has been under consideration for some weeks and it is expected that plans for the building will be approved at the meeting. Arrangements have been made to give every person present a copy of the plans in order that they may follow the explanation of the proposed plan and ask questions that may arise in the course of the talk.

It is proposed to retain the present church auditorium and wreck the rooms to the south to make way for the new unit. This unit will include six assembly rooms and 19 class rooms. A class room will be built to the rear of the log cabin, where the mothers and cradle roll children have been meeting. The plans are said to be built on the latest plan for improved religious educational work.

"It has been agreed by the official board that two of the prevalent ills in church building must be avoided in this case," says the Rev. Franklin Minck, pastor of the church. "First there will not be any debt. The cost of \$15,000 will be covered by cash and pledges payable within three years. If this is not done in advance, there will be no building. Second, there will not be any high-pressure promotion to get the money. Too many churches have used high-pressure and then found as time went by that indifference and hard feelings replaced the high pressure.

because pledges beyond the means of the individual had been made." It is expected that a large share of the amount will be raised at the congregational meeting tomorrow night.

ARRANGE FUNERAL OF W. H. JOHNSTON

ANAHEIM, April 4.—Funeral services will be held tomorrow afternoon at 2 o'clock at the Backs, Terry and Campbell funeral chapel for W. H. Johnston, 54, well known citrus fruit dealer. The Rev. Benjamin S. Haywood will conduct the service and the body will be placed in Angelus Abbey at Compton. Mr. Johnston passed away Monday in his home after a brief illness. He had lived in California for the past 35 years and in Anaheim 11 years. He had been connected with the orange industry here and in Redlands for the past 20 years.

Editor Addresses Group In Garden Grove Wednesday

GARDEN GROVE, April 4.—Comparing the boys of today with those of other days, J. Frank Burke, editor of the Santa Ana Register, addressed the group present at the Religious School of Education in the Methodist church last night. One hundred and sixteen persons were in attendance.

The influence of the school on the student was cited by the speaker, who pointed out the importance of Christian training in the home. The speech was delivered following a 6:30 o'clock dinner. Later the students went to their various class rooms for study.

Troubled no longer by spells of dizziness

Bothered with stomach and back all his life, this man was subject to such spells of dizziness that he could hardly stand up. "I haven't had a dizzy spell since I began taking Agmel," he writes. Letters from people benefited by Agmel are received daily. One says: "A stage of influenza left me so weak I could scarcely get around. Then I started to take Agmel. I now feel so well I can't seem to realize my good fortune."

What is Agmel? A great natural health food. The sap or milk of the Mexican Agave plant concentrated by removing excess water. Nothing added. Extraordinarily rich in important minerals and other vital elements necessary for the proper adjustment and functioning of the body. A vital tonic. Not a medicine. Non-alcoholic. Thousands praise Agmel. If you have any of the following symptoms, investigate Agmel today: headache, backache, glycosuria, and frequent necessity to get up at night, etc. Ask your druggist about Agmel. Or write direct to The Agmel Corporation, 360 Park Avenue, New York, N. Y.

BUILDING FOR THREE DAYS AT \$25,000 TOTAL

FULLERTON, April 4.—Continuing the impetus which has marked construction in Fullerton since the first of the year, the first three days of April totaled \$25,000 in building permits. It was announced today by Grover Walters, building inspector.

Permits were taken out during the past three days for a garage and service station at Spadra and Chapman avenues for Roy J. Lyon by C. Stanley Chapman at a valuation of \$17,000, and two residences, one for E. S. Gregory at 853 Lois Lane at \$4,000, and the other for O. L. Carpenter on North Nicholas avenue.

A small permit was taken out yesterday for an addition at the Alpha Beta grocery store on North Spadra road.

The totals for the year to date has reached \$350,000, as compared to \$192,000 for 1928 to date.

More than 25 residences are under construction in various parts of the city, all having been started since the first of the year. In addition to the homes, plans for several business structures are being completed.

BUYS HOME

STANTON, April 4.—J. B. Raphael, of South Dakota, has purchased the new stucco residence of five rooms auctioned off Wednesday afternoon. The home is on Huntington boulevard at Valencia Park, the new subdivision being developed by Paul H. Blades, of Santa Monica.

Anaheim Firemen Hosts April 22 To County Group

ANAHEIM, April 4.—Arrangements were made at the firemen's meeting this week to entertain the Orange County Firemen's association April 22 in the city hall. R. Nyboe, fire chief, was appointed chairman of general arrangements. The committee on entertainment consists of W. Rand, Art Kemper and F. C. Roseberry.

ROTARIANS HEAR Y. M. C. A. OFFICIAL

FULLERTON, April 4.—Urging Rotarians to carry on in their work of promoting the ideals of up-to-date American citizenship, Albert E. Roberts, general field secretary of the national council of the Y. M. C. A., spoke before the meeting of the Fullerton Rotary club at noon yesterday in McFarland's cafe on the subject of "Impressions of the Real Meaning of Rotary."

"Too many of us live in the past and are content with the glory of former days," he declared. "It is all very well to appreciate the laurel wreath that may be placed on our brows but don't browse on the laurel wreath. What about the future and its problems? That is the situation confronting us and what man can definitely say what changes the next five years will bring in this age of speed and progress?"

AUTO STOLEN

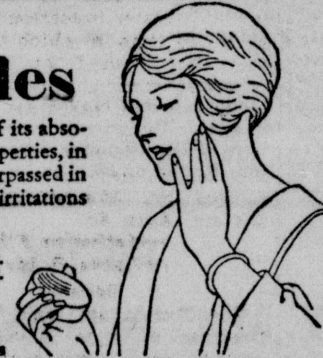

ANAHEIM, April 4.—Ysabel Moreno reported to the police yesterday that his Ford car had been stolen Tuesday.

G. C. DIRECTORS RE-ELECTED AT SAN CLEMENTE

SAN CLEMENTE, April 4.—At the regular monthly meeting of the San Clemente Chamber of Commerce its board of directors was re-elected. This election was necessary as the civic body has just received its charter from the state.

Dan Mulherron, Ole Hanson Jr. and Capt. H. H. Hammer were re-elected for three-year terms while Oscar Easley, Ed. Bartlett, O. M. Berg and Bert Latham were named for two-year terms and O. R. Robertson, Le Roy Strang, A. Travaglini and Tom Murphree Jr. for one year each.

The board will meet next week and re-elect the organization's officers, Dan Mulherron, president, Bert Latham, vice-president and Captain Hammer, secretary.

In the future the chamber will hold its monthly meetings on the first Wednesday of every month at the Social club. The Solano club will serve a dinner and a program will follow the monthly banquet of the civic body.

Note These LOCAL RECORDS

In one of the demonstrations, an Essex Challenger started slowly at the foot of Lemon Heights hill and picked up speed in climbing the first grade and maintained an even pick-up on other steeper sections of the climb, climaxing the exhibition by making a sharp turn and marching up the rough steep grade on the backway entrance to C. E. Utt home atop the hill without shifting gears. Later, on the level highway, the sedan was accelerated to 70 miles an hour, following which a speed of 50 miles an hour was maintained with complete absence of noise from the motor or body. Super construction of the body was evidenced when it was possible to open and close all doors after the machine had been placed in a cramped position on a side hill—a position in which it usually is impossible to open and close doors.

ACCELERATION Birmingham, Ala.—Standing start to 50 M. P. H. in 14.2 seconds. From 10 to 70 M. P. H. in 19.2 seconds. Little Rock, Arkansas—Standing start to 60 M. P. H. in 26 seconds. St. Louis—Standing start to 60 M. P. H. in 28 seconds.

BRAKES Detroit—From 45 miles an hour to stop in 25 feet; from 35 miles to stop in 18 feet. Dayton, Ohio—From 30 miles an hour to stop in 1 second. New Orleans—35 miles an hour to stop in 29 feet.

ECONOMY In more than 300 reported tests during Challenger Week, the gasoline consumption averaged above 20 miles a gallon. These tests ranged from reliability runs to speed trials of 70 miles an hour, hill-climbs, traffic tests, etc.

NOT JUST A SIX But a SUPER-SIX

A SUPER-SIX motor—70 miles an hour—60 miles an hour all day long—in getaway it challenges any car at any price—it challenges all in climbing hills. Remember it is built by Hudson under famous Super-Six patents. That if why it is so smooth—so powerful—no one can copy or match it.

FOUR FAMOUS NAMES and what they mean to TRUCK OWNERS

1929 PONTIAC engines
NEW BUICK engines
BIG BRUTE engines
GENERAL MOTORS TRUCKS

IN those names you have the history of modern trucks. Modern trucks mean: 1) increased work capacity; 2) greater safety, speed, flexibility; 3) lower costs per ton mile—tires, fuel, oil, depreciation, maintenance; 4) increased prestige with the public you serve—won by the fine appearance and the modern operation of your equipment.

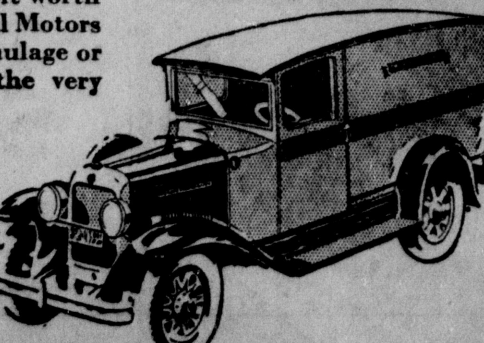

These things are worth thinking about, if you own and use trucks in your business. They make it worth any man's while to see and investigate General Motors Trucks—with a type or model to meet any haulage or delivery requirement from light duty to the very heaviest duty.

Come in and see the values we are offering.

NEWS OF LOCAL SCHOOLS

JULIA LATHROP

With the quarter's ending coming the week after spring vacation, Lathrop students are busy checking up on their grades and getting ready for quarterly tests.

Miss Nora Reid's low seven home room is very proud of having won the school savings banner with 43 per cent of the class depositing.

Ninth grade art classes have been studying costume design with especial attention to the costumes of Japan, China and ancient Greece. These classes are also at work on some posters for the Ebell flower show. Miss Tummond of the art department promises that they will be worth while and students are anxious to see the results of Lathrop's artists.

Banquet Planned

The Every Girls' club banquet for mothers and daughters is being planned for the earliest convenient date after the vacation. Parents are asked to watch for a definite announcement of the function and to come with their daughters to the banquet.

On Monday the ninth grade glee club was surprised by a delightful program planned and presented by the members of the low seven and high seven music classes. The following numbers were included in the program: piano solo by Eva Bergee; reading by Edna Wilson; guitar duet by Mignonette Ingle and Marguerite Barker; gypsy dance by Hazel Cartwright and Betty Figaro; reading by Lois Marie Barne and

vocal solo by Guillemima Dominguez.

Letters Received

Interesting letters from Australia have been received by members of Miss Pearl Nicholson's geography classes and of Miss Blythe's English classes. These letters are answers to those written by the classes during the time of studying Australia and the writing of the Friendly Letter.

The Boys' Glee club has elected officers recently, choosing Glen Gordon as president, Bob Walker as Vice President and Herbert Bowe as corresponding secretary. A uniform of white trousers and green and white shirts with green ties has been chosen by members of the club. The Lathrop branch library will remain open during the spring vacation.

During meetings of the clubs on Wednesday of last week, several interesting programs were enjoyed. The Scholarship society under the sponsorship of Miss Hazel Thrasher enjoyed a trip to the beach during club period.

Mr. Nelson, who has just returned from the superintendents' convention at Cleveland, Ohio, has completed a report of 10 pages, covering the entire meeting.

Results—that's what counts. Register Classified ads are very effective and the cost is low. Ph. 87 or 88.

Guaranteed Used Vacuum Cleaners, \$15.00 to \$25.00—214 W. 2nd. —Adv.

FRANCES WILLARD

School Savings

Jack Duncan's class section, high ninth grade, was presented the honor banner in school savings which means that his room has been 100 per cent in depositors and 100 per cent every bank day. The class deserves considerable credit for winning this contest that has been entered by all city schools with the exception of Poly high.

Those in the honor banking section are Frances Willard, Theodor Ridge, Ella Pleis, Dorothy Oliphant, Peggy Vander Brugge, Donald Stafford, Vernis Waggoner, Geneva Hunnaccut, Lola Saldana, Floyd Blower, Francis Hall, Curtis Griffin, Margaret Penrose, Norma Jane Whittington, Ellen Price, Irene Morgan, Evelyn RoClaire, Rex Crosby, Millicent Diedrich, Ned Anderson, Norah LaRose, Hilda Stumbough, Elizabeth Phillips, Armond Faccou, William Knight, Max Busch, Dora Perkins, Elizabeth West, Francis Layton, Verna Powell.

Ella Pleis.

Needlecraft

The purpose of the Needlecraft club is to learn how to execute intricate stitches. So far the girls have been making samplers. The stitches are blanket stitch, long and short stitch, feather stitch and lightning stitch. The members have made a constitution and voted on definite rules for the club. The officers include president, Alma Garthe; vice president, Barbara Duntton; secretary-treasurer, Frances Tibbets; reporter, Elizabeth Sturtevant.

Station S-P-R-I-N-G

(Editorial from Willard Arrow) "Hey there, what happens on March 29? Suppose you're going to spend your Easter vacation mourning over the grades you will get next Friday?"

"Say, boy, I'm going to spend the entire vacation at the beach, hiking and fishing. No books or pencils in mine for awhile." By this time all our good New Year's resolutions are dead and forgotten probably. Now is the time to make some new "spring resolutions." The last lap of school is near at hand. Why not start off with a bang for good grades the rest of this school term? Easter vacation will give plenty of time in which to get over our grief caused by the March 29 grade cards. April 8 will find us on our feet again ready for action.

This is Station S-P-R-I-N-G. Frances Willard junior high school, signing off. We will be back on the air, April 8.

—Katherine Fitzpatrick, —Agnes Brady.

Debates

The Journalism club, under the direction of Miss Elfrida Biggin, enjoyed some extemporaneous debates at their meeting Thursday. The main debate was "Resolved: That the radio is of greater value to progress than the newspaper." Katherine Fitzpatrick and Agnes Brady upheld the affirmative and John Johnston and Gene Thompson upheld the negative. Other members of the club acted as judges and the affirmative side won.

Another debate in which a heated argument ensued was on the subject, "Resolved: That the study of arithmetic is of more importance to the average person than the study of English." Robert Tannenbaum upheld the affirmative and Ruth Baker and Thelma Wright the negative. Although the judges voted in favor of the affirmative side for the best arguments, the other members of the class upheld the negative in a heated discussion.

Don't say "It can't be done" until you have tried a Register Classified ad. They get results. Ph. 87 or 88.

SPURGEON

The L6 grade in Miss Guyer's room has organized a health and nature club. The name of the club is "Grizzly Bear Tribe." Members have been planning the constitution.

Mary Jane Belcher.

Thursday morning a gray squirrel was brought to the nature study room. It was trapped by Arnold Wheeler's uncle. It had been eating his turkeys. We are going to let it go because it is so frightened.

—Jack Kirsher.

The school children of Santa Ana are going to give an opera. The name of it is "Hansell and Gretel." Miss Beeson, the music director, gives each school a part in the play. She has given Spurgeon school the part of the cook children in the witches house. The children who have good voices will be in the chorus.

—Mildred Beckman.

Wild Flowers

In Miss Guyer's room students have been studying wild flowers. They held a contest to see who could name the most.

—Lester Backs.

In Miss McClain's room the L5 class have been making maps of Mexico and the Philippine Islands. We find the Philippine Islands much easier to make.

—Glen Bales.

PARENT-TEACHERS

Lincoln

Mrs. John C. James, presided over the latest meeting of Lincoln P.T.A. The six A class opened the program with two songs followed by the flag salute lead by Victor Rowland. The kindergarten band, directed by Miss Priscilla Allen, furnished musical numbers.

Minutes of the previous meeting were read by Secretary Frances B. Hart. After the business session, a short talk on "Problems the Organization Has to Meet," was given by Mrs. Earl Matthews. Gene Freck, one of Lincoln's small musicians, gave two piano solos.

The remainder of the afternoon was devoted to round-table discussions, assisted by Mrs. Dr. Baker, Mrs. A. A. James, Miss Margaret Keahl and Miss Woodworth.

FRANKLIN

Seventy-five boys took part in the annual track meet held Thursday, March 28, at 2 o'clock. The events were directed by six boys and girls who were entirely responsible for the conduct and scoring. The senior events were directed by Paul Bingle and Frederick Turner, the junior events by Herman Safier and Voral Tilton, the midjet events by Natalie Beaudette and Opal Tilton.

Large monograms for the highest number of points were won by, senior: William Jones, Harold Short, Everett Hurd, Ward King. Junior: Robert Wilde, Edward Fitzgerald. Midjet: Hunter Adams, Harry Clewley.

Small monograms were won by J. R. Nugent, Roy Currutt, Homer Pennington, Oswald Jones, Erwin

Upchurch, Slayton Sharp, Benny Robinson, Bobby Blake.

Robert Wilde won the largest number of points in all events.

Spelling

Miss McFarland's class won the California flag for having the highest average in spelling.

—Raphie Nugent.

Art

In Mrs. McBay's room the higher grades are making some Easter lilies. They are making the lilies in a blue pot. Mrs. McBay will give Es to the best ones that are made in every class. The third and fourth grades are making a rabbit poster.

—Dorothy Jenkins.

Music

In our music room we are getting ready for the music appreciation contest that is coming soon. We are also learning the songs for the Hansel and Gretel opera.

etta. We are anxious to know who will be chosen to take part. Mrs. McBay will choose the best singers from the grade.

—Josephine Stilwell.

Geography and Natural History In our geography in Miss Ingham's room we are studying Europe and are talking about the World war.

In Nature Study we are pressing flowers to make a booklet of pressed flowers.

—Herman Safier.

The Safeway Club

The upper grades of Franklin school have been organizing a Safeway club and have had great success in doing it.

The sixth grade boys made a tent and the girls put the Indian symbols on the tent.

Then Miss Froeschle, our reading teacher, chose some older people to take care of the tent while

the children joined. Some did not join because they could not get a name that would suit them.

—Harold Heinly.

The following people have received Spencerian certificates recently: Constance Bruun, Carmen Herrera, Elizabeth Pyatt, Inez Parten, Herman Safier, Virginia Cyr, Rose Nackishima, Etta Cole, Anna Fernandez, Opal Seiber, Elbert Stewart, Etta Bernstein, Margaret Vardy, Josephine Stilwell, Genevieve Bowne.

—Carmen Herrera.

Arithmetic

The H3 and H4 classes tied for first place in arithmetic average for this week.

Honor Room in School Savings The H3s are very proud of the beautiful banner in Miss Froeschle's room given them by Santa Ana banks for having most deposits this month.

—Raphie Nugent.

To All Who Suffer Stomach Agony, Gas and Indigestion

C. S. Kelley Makes This Offer

Money Back if One Bottle of Dare's Mentha Pepsin Doesn't Do You More Good Than Anything You Ever Used

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You think perhaps you are suffocating.

You are dizzy and pray for quick relief—what's to be done?

Just one tablespoonful of Dare's Mentha-Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether?

Why have chronic indigestion at all? With this wonderful medicine you can overcome indigestion or dyspepsia, or any abnormal condition that keeps the stomach in constant rebellion and one bottle will prove it. Over 6,000 bottles sold in one small New Jersey town in one year—and the best druggists the country over concede that its phenomenal sales are due to the fact that the most stubborn chronic cases are promptly conquered. Ask for Dare's Mentha-Pepsin, a pleasant to take, health building stomach elixir that C. S. Kelley and regular pharmacists anywhere in America guarantee.—Adv.

Protect and beautify YOUR HOME

WHEN YOU PAINT your home with Fuller Pure Prepared, the White Lead paint, you are giving it lasting beauty. Fuller Pure Prepared Paint covers more surface per gallon, gives greater protection, lasts longer and always looks better. The best paint can't be made from White Lead substitutes. The cost of pure White Lead prohibits its use, in practical quantities, in cheap paints. Fuller Pure Prepared Paint is made of pure White Lead (for body and elasticity); Pure Zinc Oxide (for spreading capacity and hardness); the highest grade of linseed oil. It is the finest ready-mixed paint you can buy. Every cent you pay for it is justified by the lasting beauty and protection it gives your home. Consult a Master Painter—and specify Fuller Pure Prepared. Ask your nearest Fuller dealer, listed below, for a Fuller Pure Prepared color card. Write to W. P. Fuller & Co. for booklet, "Your Home As Others See It."

THE ANIMATES

STORY BY NAL COCHRAN—PICTURES BY KNICK

(READ THE STORY, THEN COLOR THE PICTURE)

The little cabin moved along, and not a single thing went wrong. The tub man knew just what to do to make it come out right. He nailed the parts, and lashed the wood, and worked as quickly as he could. Said he, "When I am through with this, I'll make a pretty sight."

No questions did the Tines ask. They sat and watched him at his work. Each one began to wonder what new thriller was in store. Vee Scouty thought, "I'll bet that we will soon be riding merrily. That's what the tub man's making that queer little cabin for."

Then Carpy jumped and loudly said, "Say, I can hit nails on the head. Please let me do some hammering. I'd like to help a bit. I am a carpenter you see, and no job is too hard for me. The things I make look nice because I make the boards all fit."

"Ha, ha!" the tub man laughed in glee. "Oh, thank you very much," said he. "But I am almost finished now. You just sit there and rest. When this is set to take a fly, you all shall have a ride up high. I've tried to make it safe and sound. I hope 'twill stand the test."

And then he cried, "The task is done! Prepare yourselves for heaps of fun. I'll hit the funny Goofygo. He'll fly through sunshine and through shower. His wings, you know, have lots of power. You Tines cannot steer him. He'll take his own sweet course."

Then Clowny said, "You come along, because we feel that you are strong enough to make the bird behave." The Tub Man promptly roared, "Oh, no! If all of you don't mind, I'll send you off, and stay behind. We're ready for the start now, so you Tines hop aboard."

(The Goofygo starts away in the next story.)

—Congreve.

THIRTY-SEVEN CENTS SIGNIFICANT

Several days ago the news appeared that Mahatma Gandhi, Nationalist leader and hero of India, who was arrested March 4 for making a bonfire of foreign clothes in a public park, had been fined thirty-seven cents. Such an item excites curiosity for more of the background details of the episode because Gandhi's activities have for many years been significant and important in Indian affairs.

C. F. Anderson, an English clergyman, who has lived for many years in India and who is President of the Indian Trades Union Congress, writes a timely article in one of the current weeklies which takes the episode into account.

A portion of his article is as follows:
"Without any doubt, affairs in India are now rapidly coming to a head, and a crisis may be expected, such as occurred a few years ago in China . . . now as always, since 1918, Gandhi and Gandhi alone is the central driving force in Indian political life. . . ."

Then he quotes from an interview with the former Governor of Bombay, Sir George Lloyd: "He (Gandhi) gave us a scare! His program filled our jails. You can't go on arresting people forever you know—not when there are 319,000,000 of them. . . ."

"Gandhi's was the most colossal experiment in world history and it came within an inch of succeeding. But he couldn't control men's passions. They became violent and he called off his program!"

Sir George Lloyd refers to the Nationalist program some years ago when foreign clothes were burned.

"Day after day," says Mr. Anderson, "the burning had gone on. For instance, I have a record of one such bonfire on Chowpatty Beach, Bombay, which was over one hundred feet high, attended by over one hundred thousand people. . . ."

The mob of illiterate mill-hands from burning foreign clothes as a protest against British domination.

"soon began to burn other things as well. They set fire to houses and street cars, and presently killed innocent people in the streets merely because they were Europeans."

Then it was, according to Mr. Anderson, that Mahatma Gandhi's program of non-violence was defeated by his own followers who traversed the boundaries between non-violence and violence.

He continues:

"The young ardent spirits in Bengal have always, in their heart of hearts, favored the pathway of violence, which has appeared to them more daring and adventurous than the slow, long torture of passive resistance. . . ."

It remains to be seen whether he (Gandhi) will still continue now to defend this burning, as in accord with non-violence, or whether he will withdraw it altogether from his non-violent program. . . ."

"Mahatma Gandhi definitely promised, at the All-India National Congress in Calcutta last December, to lead the Indian people forward in a non-violent struggle, unless the British government accepts the national demand for Swaraj before December 31, 1929. . . ."

"Within three months of this declaration, Mahatma Gandhi himself has been arrested, and the issue appears to have been over the 'Burning of Foreign Clothes.' It is clear already that the issue of violence or non-violence will have to be faced."

Mr. Anderson sees in this episode of the "Burning of Foreign Clothes" the most ominous sign of the times in the trend of affairs in India. He cites several examples which influence his opinion:

"In London last year, it was easily possible for me to meet the most ardent of the younger Nationalists. They concealed nothing from me. Their own ideal was still distinctly that of Ahimsa, or non-violence. But they declared, almost without exception, that their own bitter experience had very nearly proved to them that the West did not understand any weapon except force."

"Again, the All-India Trades Union Congress, held in December at Jharia, in the coal and iron districts of India. . . . swung over in an unmistakable manner. . . . to the ridicule of non-violence. . . . in the All-India National Congress itself, the swing towards the left has been marked. When Mahatma Gandhi pleaded for one year's delay, he was nearly out-voted. . . . That vote in open session of the National Congress. . . . was ominous. It means that the patience and endurance of the younger men among the Indian intelligentsia were almost exhausted. . . ."

Nothing but a great and generous deed on the part of British statesmen can save the situation now from disaster."

The Massachusetts legislature has a bill that would permit deer hunting with bow and arrow. Probably a conservation measure.

OVER-CROWDING AND DIVORCE

Following a "fact-finding" investigation in the Cincinnati Court of Domestic Relations, Professor Horrell Hart of Bryn Mawr stated that in eight cases out of ten those who were divorced or wished divorces were living in apartments of four rooms or less. Divorce, he said, was to a great extent caused by over-crowding in small apartments. New York statistics bear out this statement since in that city of crowded living quarters divorce is as high as anywhere in the nation.

This new analysis of the cause for divorce is especially worthy of attention in the light of the prevailing tendency toward smaller homes.

Most people realize without recourse to any "fact-finding" figures that a three-room and kitchenette apartment together with the "nerves" which are characteristic of the century are enough to make two people terribly incompatible.

Wisdom that comes with age causes many individuals to seek occasional seclusion or at least

to realize the necessity for an opportunity for seclusion. It is absolutely essential for some people. Young people don't realize it. They foolishly believe and are helped in that belief that if two people love it means that they cherish each other company all the time. It is held to be inconceivable that they should need the distance of a fair-sized house between them now and then. When they find constant companionship does get on their nerves a little they conclude that they don't love enough because, according to their belief, if they did they would never tire of each other.

The advice of a college dean can well be followed by more people than the Freshmen girls to whom she was talking.

She said: "Leave your room-mate alone now and then. Go away somewhere. If you haven't any definite errand, make one. Go to the library. Leave the room-mate alone in your room now and then."

In this community we are not as yet particularly impressed with this aspect of the divorce evil, but it is well for young people to get it firmly fixed in their minds that because constant companionship proves boring do not think you are candidates for the divorce court. Avoid over-crowding.

A New York critic says the talkies, in bringing to every Main Street the music shows of Broadway, will give the small towns a new kind of civilization. They may be able to overcome, it however.

FREEDOM FOR STUDY

Booth Tarkington has been blind for the past year. In a short time he expects to undergo an operation which will restore his sight. There seems to be no doubt but that it will be successful.

In a recent interview Mr. Tarkington had a remarkable cheerful attitude toward his period of blindness. "I cannot say that I have minded it," he said. "It has been a great experience for me. I really can't complain. Aside from the realization that I am dependent upon others and perhaps a burden, it has been a happy time."

The new American woman has been Mr. Tarkington's chief interest during his blindness. We hope that he will not be disillusioned when he is able to see her again. She has traveled pretty fast, progressed or retrogressed, depending on the viewpoint, considerable in the short time he has been unable to see her. Possibly Mr. Tarkington's imagination, unsupported by his eyes is better for the new American woman than when he can see her in all her glory. We may know from his reaction whether love is blind because it is love or whether it is love because it is blind.

At Last a Solution of Vexed Servant Problem

Americans who have been fussing about the servant problem are invited to consider a very simple solution of it that comes from London. It will not only save the annoyances that have clung about domestic management but will also spare the great expenditure of ingenuity and money that Americans are incurring for the installation of labor-saving devices in the home. That the point may not be missed we suggest careful reading of the following extract from a letter to the London Times' Little brother to our Safety Valve:

"I see that the question of domestic service is to the fore again. May I, as a mere man, living alone, state how I have overcome the difficulty, to my own complete comfort and, I am told, to that of my visitors? With one exception all my staff are men. It consists of a man and wife for housework, young chef and lad in the kitchen, and butler, valet and pantry boy. No one ever leaves except the pantry boy, who foolishly grows up sometimes. There are mutual regrets at parting, and he is not hard to replace."

There it is, as simple as all get out. You American masters and mistresses who have been whimpering over the servant problem may now be properly ashamed of yourselves. If you have difficulty in keeping one or two servants the solution is plain.

Keep seven.

Dishwashing to a Degree

A young woman student at Chicago University has won her degree by a thesis on dishwashing. Most Ph. D.'s are got by digging at such matters some kind of manual labor to work their way to as the Odín heroes in Germanic hero sagas. Dishwashing is as much out of the usual line as ditch digging would be. When students engage in some kind of manual labor to work their way to a degree, they ordinarily like to make their theses as remote as possible from the tasks that enable them to remain in college.

Commercialized dishwashing had nothing to do with the present case. The subject was studied as an art—not too esthetic. Practice as well as theory came in for serious consideration. Housewives will want a copy of the thesis, which describes three ideal methods of restoring tableware to freshness and the cupboard. The best, or at any rate the speediest, requires 22 minutes and 31 seconds to do the dishes for three meals for a family of four. The perfect practitioner of this system makes 1,015 motions for the entire operation.

A few days ago an industrial concern reported that a new glaze on chinaware is being thoroughly tested by constant washing in hot soapy water. Two men successively employed for the work have given up in sheer boredom, and a third has started on the treadmill. When he falls by the wayside the company had better send for the young expert. She could find a way to get the glaze off.

Of Tremendous Importance

While a part of official Washington it may be of utmost importance to have it decided, once and for all, if the sister of a Vice-President is to be given social precedence over wives of ambassadors, the rest of the country will continue to consider baseball and home-gardening of more moment. If the etiquette books say nothing on the subject of sisters of Vice-Presidents who happen to be widowers, it is time the subject was weighed by those who are expert in those matters of class and distinction. Before a sister walks into the dining room ahead of the wife of an ambassador, a public should be assured that war is not to be a consequence.

Those who are sufficiently interested to look for deep underlying motives and politics may make much of the fact that the decision which places Vice-President Curtis' sister second to the wives of the Ambassadors and Ministers was made by an Ambassador. A law of tremendous importance to many in this democracy was laid down solemnly by a representative of a king.

Geography In the Spring Time

More Truth Than Poetry

By James J. Montague

DEBUNKING

I've often read that Washington
Was not quite what he seems
To those who base the General's case
Upon the works of Weems.
I've read he had a temper
And sometimes even swore
But just the same no one can claim
He didn't win the war.
And though detractors may detract
They can't debunk that simple fact.
I've read that Alexander
Was really not so great
But that he struck a bunch of luck
By grace of favoring fate.
They say his fighting tactics
Were but of little worth
But none the less they all confess
That he once ruled the earth.
And never by the slightest chance
Can they debunk that circumstance.
Debunking may be useful
Perhaps it helps us see
That men of fame have played the game
A lot like you or me.
In holding up their failings
It shows that Such and Such
And So and So of long ago
Were really not so much.
But there's one job we've got to do,
And that's debunk debunkers, too.

Dr. Frank Crane's
Friendly Talk

By Dr. Frank Crane

THE PERPETUAL MOTIVE

You want what I want.
We both want what everyone wants.
The one who goes to war and the man who stays at home;
the one who becomes a miser and the one who gives his life to service; the physical culturist who piles on more muscle and the flat-chested scholar who pores over dusty volumes; the woman who seeks a "career" and the woman who rears a family; all are seeking one and the same thing.
It isn't happiness.
It is what makes happiness.
It isn't contentment.
It is the source of contentment.
To the individual it is the most important thing in the whole world.
It is self-respect.
Deep down inside, the thing that we want most is to be proud of ourselves, to approve ourselves, to congratulate ourselves, to respect ourselves.

As you look back, you know that the times you have been happiest and most contented with life have been those times when you were most proud of yourself and when your actions were nearest those you thought right.

Nothing pleases us when we do not please ourselves.
This desire for self-respect is the perpetual motive that shapes our actions.

Many and divergent are the paths that are followed in seeking it, because many are the ideas of what brings it to us.
Environment holds the high cards in the game to determine what we think is worth while and what we conceive brings self-respect.

The corner tough thinks his self-respect is dependent upon physical supremacy; the philosopher upon his mental power.

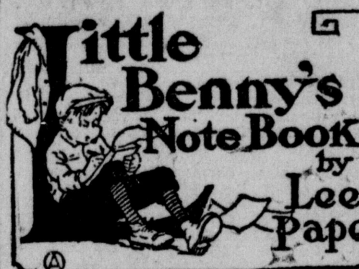

Much of our misjudging of others arises from the fact that they have different ideas of what brings self-respect than we possess. We are prone to divide the respectable from the unrespectable on the basis of whether their path to self-respect is the same as ours or not.

Ideas of national self-respect as well as individual self-respect differ. Some nations have sought it in war and others in commerce and others in developing resources within the land.

Each has tended to look down upon the nation that followed a different road.

As long as we follow what we conceive to be what we should do, we have our measure of happiness. It is when we know what we ought to do but fail to do it that we lose our self-respect and, bolster it up as we will, our contentment with life begins to slip.

Pop was smoking to himself and ma sed, Willyum, Mrs. Hews called me on the fone today and told me her parrit has lerned an other new word, or another whole new expression, in fact. He says Good nite now as well as Good morning. In fact, Mrs. Hews sed, it was quite laffable, he was so proud of his new aquisition he kepp on shreeking it all nite long and it rither broke into their sleep, ma sed.

Well well, it must of been amusing indeed, pop sed. I'd of got up out of bed and smilingly brained the insect, he sed, and ma sed, Now Willyum you know very well you'd be the proudest man alive if you had a pritty little intelligent parrit, and I mite as well make a long story short and tell you rite now that I intend to get one.

What, yee gods, wat? pop sed. Not while Im alive, not while a shred of the instinct of self preservation remains in my poor body, he sed. Dont you think my life was made mizerable enuff by that unspeakable canary we had around heer for so long, that insolent beast that dashed water all over me when I tried to read my paper and then hurled bird seed at me just to prove it wasent an axident. Do you think with the memory of that creature panefully fresh in my mind Id let a hideous shrieking squawking clawing biting parrit into the house? No sir, not by a jugful, not in a thousand yeers, not over my fiving body, not while Im conscious, no sir, he sed.

Well my lands Willyum for goodness sakes you dont need to carry one like a lost soul about it, I havent got one yet, have I? ma sed, and pop sed, No, but if I know you, you will.

Well I must say its very nice of you to take that reasonable attitude about it, ma sed, and pop sed, Yee gods, good by.

And he got behind the sporting page and stayed there.

Thoughts On Modern
Life

By Glenn Frank

A 200 A. D. PICTURE OF 1929

In the latter part of the second century of the Christian Era, there was a Cynic philosopher called Maximus Tyrius.
He was more a popular preacher than a philosopher, but he belonged to that great band of Cynics, Epicureans, and Stoics, who came into being after the Greek cities had largely lost their independence and their citizens were feeling about for some philosophy that would help them to face life as it was under the new conditions.
The writings of these traveling evangelists of philosophy make interesting reading even at this late date, and there is something strikingly modern about them.
This evening I have tried to refresh my spirit, after a hard day with budgets and finance committees, by dipping into these writings, and I have come upon this description of the life of the people of his time by Maximus Tyrius:
"Always exploring some novelty of pleasure, and indifferent to yesterday's delights."
"Pursuing joy and finding pain."
"Eager for wealth, and always rating their gains below their expectations and their possessions below what they did not possess."
"Afraid of indigence and unable to be satisfied."
"Dreading death but indifferent to life."
"Afraid of ill health and indulging in unhealthy things."
"Suspicious of others and always plotting."
"Formidable to the defenseless and timid before the armed."
"Hats of despotism and desirous to practice it."
"Critical of disgraceful actions and guilty of them."
"Admirers of prosperity but not of virtue."
"Pitying misfortune, but not avoiding misery."
"Audacious in success, incompetent in failure."
"Greedy of life while they call the dead happy."
"Censuring war and incapable of peace."
"Abject in servitude and rash in freedom."
"Uncontrolled in democracy and timid in despotism."
"Eager for children and indifferent when they have them."
"Praying to God as though He could help them and despising Him as though He could not."
"Afraid of His punishments and perjurying themselves as though He did not exist."
After all, human nature apparently has changed little over the centuries.

OUR CHILDREN

By ANGELO PATRI

MONEY AND CHILDREN

Money gives children a bad hour or so from time to time. You see money is a purely adult matter. Children know nothing about it. They cannot know much about it until they have experience with it and of course that experience is long in coming.

Most of the trouble children have with money is due to their elders. Some of us are very careless about it. We say grandly to the eager little boy, "Keep the change," without even glancing at it. We spend money with a blithe and careless air that says, "What is money to me? Not worth a moment's thought." That may be true—but it takes a lifetime of hard experience to prove it. The children do not understand that attitude at all. They can accept it, but if they do they will find themselves in difficulties with these very people.

Some of us are very close about money. The children are never allowed to know about the family income or to have an interest in the budget. They get no money of their own. Everything is bought for them and they are allowed no word in the matter. All money experience is carefully excluded from the lives of the children in such a household. That, too, invites trouble.

Purses and handbags scattered about are sources of trouble. The apparent carelessness of the grownups reflects itself upon the children. If nobody cares about the money why not have a bit? Why, these people do not even know how much money is in their purses, so little do they care about it. And that means plenty of trouble.

We have to teach children about money as we would teach them about the use of any other power.

Early—about the eighth year of their lives, we begin letting them buy little necessities out of their allowance. We begin teaching them to keep accounts. We extend their buying—we teach them to save a little each week for a coveted treat. We indicate ways of earning money.

When the child reaches college age he should have a working knowledge of the meaning, the use and the value of money. He should be able to buy his own necessities, take care of his own checking account.

If we educate children in the use of money in this way we will have less trouble with pilfering and its allied interests.

Angelo Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, enclosing stamped, addressed envelope for reply.)

TODAY IS THE ANNIVERSARY

OUR FLAG

On April 4, 1818, congress enacted the law which fixed for all time the design of the flag of the United States.

The law rectified an error which a short-sighted congress had enacted in 1795, after the admission of Vermont and Kentucky to the Union. This 1795 act provided that a stripe should be added for each of these states, and for 23 years the national ensign had 15 stripes.

It was a 15-stripe flag which waved over Ft. McHenry and inspired Francis Scott Key to write "The Star-Spangled Banner." And only the action which congress took 111 years ago today saved the general characteristics of our flag as it was in revolutionary days for this day of 48 states.

As everyone knows, the act of 1818 reduced the number of stripes to 13—one for each of the original states—and provided that
